Location: Magondi Village, Bangarapet, Kolar, Karnataka - 563114

Objective: Full Stack Developer with experience in front-end and back-end development, building responsive web and mobile applications. Proficient in optimizing processes, enhancing user experience, and driving team success. Eager to leverage skills in developing innovative and scalable solutions.

INTERNSHIPS AND PROFESSIONAL TRAININGS

EXCELR EDTECH LTD, Bengaluru **(Present)**

- **Full Stack Development Intern:** Currently Gaining expertise in **front-end** technologies like **React.js** and **back-end** technologies such as **Spring Boot**, **Hibernate**, **REST APIs**, and **Microservices**. Developed a prototype that reduced page load time by **25%** through **React.js** optimization.

TNS INDIA FOUNDATION, Bengaluru **(August 2023 - November 2023)**

- **Java Programming Training:** Completed training in **Java, Spring Boot, Maven, Node.js, React, HTML5, CSS3, SQL**, and enhanced an inventory management system that improved data retrieval efficiency by **30%**.
- **Professional Skills Development:** Improved expertise in **communication**, **teamwork**, **time management**, and **problem-solving** through targeted professional training.

Tech Citi Software Consultancy Private Ltd, Bengaluru **(August 2023 - September 2023)**

- **Loan Prediction System Developer Intern**: **Developed** a real-time **loan prediction system** using **Django**, achieving **85% accuracy**. Designed an intuitive interface with **HTML5, CSS3, JavaScript**, boosting **user engagement by 30%** and reducing response time by **25%**.

PROJECTS

- **Unified Sentiment Analysis of E-commerce Product Evaluation:** Led a **machine learning** project analyzing 10,000+ customer reviews, improving **sentiment prediction accuracy** by 20% using **NLP techniques** and **classification algorithms**.

  Technologies Used: HTML5, CSS3, JavaScript, Python, Django, scikit-learn, MySQL, Jupyter Notebook.
- **Aahaar Food Donation Application:** Contributed to a **mobile app** using **Java** and **XML**, connecting **100+ food donors** with receivers and reducing **food wastage** by 30% through improved **logistics** and **notifications**.

  Technologies Used: Java, XML, Android Studio.
- **Old Age Home Management System:** Collaborated on developing a system using **PHP**, **MySQL**, and **JavaScript**, enhancing the **user interface** to reduce **data entry errors** by 30%.

  Technologies Used: PHP, MySQL, HTML5, CSS3, JavaScript.
- **Product Management System:** Assisted in developing a **full-stack** system using **Spring Boot**, **React**, and **MySQL**, automating **inventory tracking** and reducing manual efforts by 40%. Used **Postman** for **API testing** to ensure efficient data handling.

  Technologies Used: Spring Boot, React, MySQL, Postman.

EDUCATION

C Byregowda Institute of Technology **Kolar**
Bachelor of Computer Science Engineering December 2020 - June 2024
Graduated: June 2024 **CGPA:** 8.02

Government PU College **Kolar**
PUC in PCMB June 2018 - March 2020
Batch: March 2020 **Percentage :** 61.05%

Santosh English High School **Bangarapet**
SSLC April 2018
Batch: April 2018 **Percentage :** 79.04%

SKILLS

- **Programming Languages:** C, C++, Java, Python.
- **Front-End Development:** HTML5, CSS3, JavaScript, Bootstrap, React.js, AngularJS, Responsive Web Design.
- **Back-End Development:** Spring Boot, Node.js, RESTful APIs, Microservices.
- **Database Management:** MySQL, SQL, SQLite, JDBC.
- **Version Control:** Git, GitHub, Maven.
- **Coding Fundamentals:** Object-Oriented Design (OOP), Data Structures.
- **Development Tools:** Visual Studio Code, Eclipse, IntelliJ IDEA, Postman.
- **Operating Systems:** Windows, Linux, macOS.
- **Core Professional Skills**: Effective Communication, Quick Learning, Active Listening, Strong Writing Skills, Maintaining Confidentiality, Punctuality, Time Management, Team Leadership, Adaptability, Problem-Solving Abilities, Proficiency in Coding Languages and Critical Thinking.

ACHIEVEMENTS, AWARDS AND CERTIFICATIONS

Certifications:

- **Java Programming Training,** TNSIF (3 months), Bengaluru.
- **Machine Learning Internship,** Tech Citi Software Consultancy (1 month), Bengaluru.
- **Office Management Course,** Kayaka Computer Institute, Bangarapet.
- **Data Analytics,** Nirmaan Organization (3 months), Bengaluru.
- **Java Full Stack Development,** ExcelR (6 months, Present), Bengaluru.
- **Online Courses:** Data Analysis with Excel, Exploratory Data Analysis, Java Course, Python Basics, Ethical Hacking, Smart English Basics, Firewall Basics, HTML5, CSS3, Truecaller Optimization.

Awards and Honors:

- **First Prize**, Final Year Major Project Exhibition, CBIT.
- **National Conference Presentations:** Cloud Computing, Android Application Development, Sentiment Analysis in Machine Learning.

ADDITIONAL INFORMATION

- **Hobbies:** Drawing, Cricket, Gardening, Reading Newspapers, Learning New Technologies.
- **Volunteer Experience:** Tutored students in basic computer skills (Magondi Village) and organized/managed workshops, seminars, and events.
- **Languages:** Kannada (Native), English, Telugu.
