DINAKAR.MP

To obtain a challenging and rewarding position in Cyber Security Administration with an organization which recognizes my true potential. and provides me enough avenues for professional growth by nurturing my technical skills and competencies.

Profile Summary

- **3 years** of experience in Cyber Security tools and administration and Networking
- Currently associated with **foresight software solutions** as **Network Security Engineer from MAY 2022 till present.**
- Previously associated with **CSS Corp**, Chennai as **Network Engineer** from **May 2021** till **May 2022.**
- Proficient in wide range of security tools and services industry.
- Experience in Microsoft Excel, Word, Management and Customer Service.

Technical Expertise

♦ **Operating System:**	**Windows Server (2012 R2) / Linux -Kali**
♦ **SIEM tool:**	**Q Radar**
♦ **PAM:**	**ARCON/Beyond Trust**
♦ **MFA:**	**Entrust identity guard.**
♦ **DLP: Data /Web /Cloud/proxy**	**Forcepoint**
♦ **Endpoint Protection /Antivirus:**	**Symantec Endpoint Protection/ Forcepoint Endpoint**
♦ **Vulnerability Management:**	**Qualys/Tenable Nessus (VAPT)**
♦ **Ticketing Tools:**	**Silva ServiceNow/ManageEngine ServiceDesk plus**
♦ **Audit Standard:**	**PCIDSS**
♦ **Certificate Management**	
♦ **Key Management**	
♦ **Firewall**	**Fortinet /Check Point.**

Project Details

Foresight software solutions:Information Security ,DLP: Data, WEB, cloud May:2022)

I am part of erudite project of DLP Cyber Security Unit wherein I am responsible to take initial knowledge transfer from DLP CYBER SECURITY and continuous procedures and processes accordingly. Project involves and mainly focus on Data loss prevention where data can be tracked in use, at motion, and in rest The project also involves DLP Web, and cloud Security mitigation based on company's policies. As I have been

migrated to clints **location (Landmark group)** I have gained knowledge on PAM (Tool: ARCON/ Beyond Trust) SIEM (Q Radar)

- **Project 1**
- Current: Client - Lifestyle
- Environment: DLP, Q Radar, VAPT
- Duration: 2 years
- Position: Network Security Engineer/Cyber Security Engineer

- Description: The IBM Q Radar and Forcepoint is a security information and event management product that is designed for enterprises. The tool collects data from the organization and the network devices. It also connects to the operating systems, host assets, applications, vulnerabilities, user activities, and behaviors. In this tool I have involved in monitoring and controlling of threats, identifying the cause for the attack/alert and based on the risk level the alert is closed. Involved in gathering data of alerts by performing SQL queries and represent in tabular format. Filtering the data by performing query and analyzing results based on filtered data.

Vulnerability Assessment Scanning & Penetration Testing

- Configures, runs, and reports on vulnerability scans of network attached devices.
- Provides consulting and guidance to technical and business personnel on vulnerability remediation.
- Monitors and reports on remediation efforts for compliance to vulnerability management standards.
- Assists with penetration testing and red team activities.
- performing network security functions
- understanding of vulnerability management, penetration testing, network security issues, firewalls, intrusion detection, authentication, hacker tools and methodology, current network operating systems, routing, incident and process development

IDS/IPS:

- Manage, operate, and analyze data from corporate security systems including CISCO Source fire, IBMProventia, CISCO firesight and next generation IPS.
- Monitored events, Log Analysis, verifying SNORT rule in packet analysis, responded to incidents, reportedfindings and fine Tuning the IPS device.
- Blacklisting and Whitelisting of IP’s and updating the devices, deploying for pentest activities.
- Unleash the benefits of application control and intrusion protection (IPS), as well as extensibility support foradditional security capabilities.
- Generate TS file, handling sensors by configuring and deploying the policies as admin in troubleshootingscenarios.

PCI DSS Audit:

Worked on audit structures internally/externally based on PCI DSS audit compliance.

Made sure that the requirements are based on security standards for all end points and servers to be PCI DSS compliant according to the client organization. Provided all necessary documents and walkthroughs for audit calls and was involved and aware of audits based on PCI DSS standards.

CSS Corp: Network :Router, switch, firewall, Access point 2021-2022)

In my First company I have worked on network devices for Net gear, troubleshooting on network issue connectivity problems. On Switch, Router, firewall

Vulnerability and Threat intelligence service (VaTIS):

- Responsible role in carryout VaTIS process where we cover vulnerability identified in any product or any new threat or Zero Day exploit identified in wild and sends the advisory globally.

Antivirus:

- We have Symantec antivirus in our environment and having brief knowledge of this.
- Checking the Computer status and risk logs for client on regular basis, and scheduling scans.
- Configuring and deploying HIPS policies in Symantec endpoint manager.

SILVA and CORNERSTONE MANAGE Engine:

- Handling the ITIL tool for ticketing.

Responsibilities:

- Collecting, analyzing and preserving the evidence related to incidents.
- Log analysis, SIEM & DLP log analysis utilizing Enterprise Products
- Ensure application availability and SLA adherence.
- Assist, co-ordinate with the Security Incident Handling Team (onsite projects team) and providing assistance during investigation.
- Understanding raw logs of firewall, Database, DLP and proxy.
- Working on Ad-Hoc request from customer & creating ticket on ticketing tool.
- Identify of the Information security Incidents, by observing the events and alerts generated by the dashboards. And rules

CERTIFICATIONS

- **Forcepoint DLP: Data loss prevention (issued: OCT 2022)**
- **Forcepoint DLP: WEB, proxy (issued: Aug 2022)**
- **Net gear (Router, Switch)**
- **CISCO: Endpoint Security (issued Nov 2023)**
- **CISCO: Cyber Threat Management**

STRENGTHS

- **Keen, Enthusiastic and Eager to learn.**
- **Can produce results under deadline constraints and tight schedule.**
- **Good Communication Skills.**
- **Determined to learn with practical approach**.

Education

- **B.E (CS)** from Aarupadai veedu institute of Technology

Personal Details

- **Date of Birth:** **23/4/1998**
- **Current Location:** **Bangalore**
- **Languages Known:** **English, Kannada, Hindi, Tamil, Telugu**
- **Interests:** **Reading Books and Travelling, bodybuilding, sports**
- **Passport:** **Available**
- **Gender:** **male**
- **Experience:** **03years**

Declaration

I hereby declare that the information and facts stated above are true and correct to the best of my knowledge and belief.
