# SHRUTI SHAH

## Software Engineer

Experienced IT professional with dedicated software development expertise, contributing to the success of the largest global technology leader in design & manufacturing.

## SKILLS

- C, C++,Java
- HTML, CSS, JavaScript
- Agile, Jira
- Git

## EDUCATION

MCA
Computer Application
University of Pune
GPA: 4.86

June 2014 - June 2017

**Location** :
Pune, Maharashtra

## EXPERIENCE

### Software Engineer *(1.5 years)* *June 2022 – Till date*

***Prorigo Software Pvt. Ltd.***

•Spearheading software enhancements utilizing a diverse range of technologies such as Java for backend development and YUI for frontend.

•Collaborating seamlessly with team members to design, develop, and test project features, employing additional technologies such as HTML, CSS, and JavaScript.

•Conducting rigorous code reviews and internal testing to ensure peak performance, leveraging tools like JUnit .

• Solely managing backend data migration for seamless integration, utilizing databases such as MySQL.

•Recognized for excellent project management and delivery-oriented approach, consistently meeting project deadlines and exceeding expectations.

• Actively participating in grooming sessions and strategic planning, utilizing agile methodologies and tools like JIRA.

• Providing expert troubleshooting and client communication for feature demonstrations and query resolution.

### Online Coding Trainer *Aug 2020 – June2022*

***White Hat Junior***

Effectively guided and coached over 50 students through personalized one-on-one sessions, ensuring their academic success and engagement.

Key Achievements:

- Tailoring teaching methods and materials to suit individual student needs, resulting in a 100% engagement rate among students.
- Designing customized learning materials based on student interests and utilizing interactive brainstorming techniques to enhance learning experiences.
- Implementing practical and application-oriented programming methods to foster comprehensive understanding.
- Demonstrating a proven track record of student growth and sustained engagement.
- Garnering outstanding feedback from both students and parents, leading to increased demand for additional one-on-one coding sessions and other educational programs.
- Conducting virtual instructor-led training sessions via web platforms to accommodate diverse learning needs.

## Coding Trainer

*Aug 2014 – June2022*

- **Freelancing:** Mentored and trained over 300 students in group and one-on-one sessions, focusing on programming and related computing subjects.
- Tailored guidance to upskill students in programming techniques and project development, with meticulously organized course materials and structured teaching methodologies.
- Conducted dynamic sessions to address individual academic needs and goals, offering constructive feedback and guidance until students achieved competency and confidence.
- **Impetus IT Services Ltd:** Delivered comprehensive training to batches of 15+ students in computer science disciplines, ensuring a thorough understanding of core concepts.
- Conducted personalized mentoring sessions to tailor lessons and assessments, providing continuous support and fostering student growth in programming and related subjects.

## Assistant Professor

*June 2012 – Aug 2014*

***Pad. Dr. D. Y. Patil Science & Computer Science College***

- Conducted training sessions for 200+ students, enhancing conceptual understanding and flow during 30–60-minute sessions by optimizing lesson plans and providing supplementary coding assignments and reading materials.
- Developed tailored teaching materials, coordinating academic services for additional support.
- Fostered strong student relationships and peer social development through small-group assignments.
