SUMMARY

I am an experienced web developer with over 2 years of expertise in building robust RESTful APIs and microservices, particularly utilizing NestJS with efficient NATS communication. My proficiency extends to creating dynamic front-ends with Angular, managing containerized applications using Docker, and skilled database handling using PostgreSQL and Redis. I excel in integrating subscription management systems like Chargebee.

EXPERIENCE

Software Engineer

Mangalore Infotech Solution Private Ltd (Unicourt India)

10/2022 - 01/1970 Karnataka, India

Company Description

- Developed full-stack applications: Integrated robust RESTful APIs with Angular frontends using JSON for efficient data exchange and real-time updates via WebSockets and NATS.
- Skilled in designing and building microservices with NestJS, utilizing NATS and TCP for scalable communication.
- Proficient in application containerization and orchestration using Docker and Docker Compose.
- Experienced in managing relational (PostgreSQL) and non-relational (Redis) databases.
- Expertise in integrating RESTful APIs with Angular frontend for efficient JSON-based data exchange.
- Proficient in database interaction with TypeORM and Prisma for PostgreSQL.
- Skilled in implementing JWT authentication, exception handling, logging, and request-response tracking.
- Integrated NATS for real-time data exchange and asynchronous microservice interactions.
- Designed A/B testing architectures leveraging Istio in Kubernetes environments.
- Experienced in subscription management and payment processing with Chargebee and Stripe.

Software Engineer Intern

Mangalore Infotech Solution Private Ltd (Unicourt India)

04/2022 - 10/2024 Karnataka, India

Company Description

- Actively prepared proof of concept (POC) projects using NestJS and Angular.
- Implemented authentication and authorization using Passport.js and AWS Cognito for secure identity management.
- POC on Socket.io and NATS for real-time data exchange and asynchronous microservice interactions.

EDUCATION

Bachelor of Engineering

Vivekananda College of Engineering & Technology

08/2018 - 05/2022
Mangalore, Karnataka, India

SKILLS

Javascript, Typescript, Node.js, Angular, NestJS, Docker, PostgreSQL, TypeORM, Prisma, Redis, NATS, Socket.IO, Microservices, A/B Testing, Lambda, AWS, Kubernetes, ChargeBee, WebSockets, AWS Cognito, Git, Grafana, JIRA, RESTful API, JWT, Kibana, Grafana, Socket.IO, TypeORM, Prisma
