VISWAANAGOOR MEERAN SAHIB

vnmssahibkhan786@gmail.com
+91 9994076269

OBJECTIVE

AWS cloud and DevOps professional with hands-on experience in designing, implementing, and managing cloud solutions. Expert in AWS services and DevOps tools for streamlined development and deployment. Seeking a role to optimize infrastructure, enhance scalability, and automate workflows for organizational success.

EDUCATION

2021	**Bachelor of Computer Applications** Sri Ram Nallamani Yadava College of Arts & Science

EXPERIENCE

OCT 2021 - OCT 2023	**Associate Software Engineer** Prodapt Solution Private Limited
April 2024 - Present	**DevOps Engineer** Moving Walls Private Limited

SKILLS SUMMARY

- **AWS Services Expertise:** Proficient in various AWS services including EC2, S3, CloudWatch, IAM, Route 53, SNS, AWS CLI, CloudFront, VPC, Lambda, CloudTrail, and Machine Learning with a strong understanding of cloud architecture and best practices.
- **EC2 Provisioning and Management:** Expert in creating, configuring, and managing virtual servers in the AWS cloud. Comprehensive understanding of various EC2 instance types and their specific use cases, including intensive computation, large-scale memory, and extensive storage needs.
- **S3 Advanced Setup:** Proficient in Amazon S3, expertly configuring buckets and orchestrating precise permissions through policies and ACLs. Demonstrated advanced proficiency in cross-region replication, seamless object handling, versioning, static website hosting, and implementation of server-side encryption for enhanced data security.
- **Command Line:** Proficient in Linux commands for server monitoring, file management, and system optimization. Skilled in configuring and securing Linux environments, automating tasks, and streamlining workflows using shell scripting.
- **Monitoring and Dashboard Expertise:** Proficient in leveraging AWS CloudWatch for monitoring, performance tuning, and cost-efficiency optimization. Skilled in creating custom dashboards to visualize and consolidate metrics and alarms, ensuring proactive management of AWS resources.
- **Security and Compliance:** Knowledgeable about AWS security measures, including IAM policies, encryption, and compliance frameworks. Ensuring data protection and regulatory compliance.
- **Latency Optimization:** Experienced in optimizing ALB configurations for low-latency web application responses. Swift resolution of website error codes for seamless user interactions.
- **Lambda Functions:** Skilled in developing serverless applications using AWS Lambda, optimizing for real-time data processing, microservices, and automated backend tasks. Integration of Lambda with AWS services for scalable solutions.
- **AWS Route 53 Management:** Expert in AWS Route 53 for DNS management, ensuring reliable domain name resolution and seamless traffic routing. Configuring DNS records, conducting health checks, and implementing routing policies for enhanced application availability.
- **AWS SNS Integration:** Effectively integrated AWS SNS through credentials setup and notification workflow configuration, optimizing platform efficiency.
- **Troubleshooting:** Experienced in diagnosing and resolving complex issues related to AWS infrastructure and applications, minimizing downtime and ensuring optimal performance.
- **Docker Containerization:** Proficient in Docker containerization, including creating and managing Docker images and containers to streamline application deployment
- **DevOps and Automation:** Proficient in designing and managing CI/CD pipelines using GitLab to automate build processes, testing, and deployment. Skilled in optimizing workflows for efficient and scalable software delivery.
- **Terraform Proficiency:** Skilled in Terraform for infrastructure as code (IaC), automating provisioning, and orchestrating cloud resources effectively.
- **Certifications:** Hold AWS certifications such as AWS Certified Cloud Practitioner (CLF-C01) and AWS Certified Solutions Architect–Associate (SAA-C02).

PROFESSIONAL PORTFOLIO INSIGHTS

►**Cloud Platform:** Amazon Web Services (AWS)
►**Web Servers:** Apache HTTPD, Tomcat, Nginx Server
►**Monitoring Tools:** CloudWatch, CloudTrail, Amazon Inspector
►**Load Balancers:** HAProxy, AWS Elastic Load Balancing
►**AWS Storage Ecosystem:** EBS Volumes, EFS, and Storage Gateway
►**Operating Systems:** Windows, Linux, Ubuntu
►**Risk Mitigation:** AWS WAF, Shield, AWS Guard Duty, AWS Macie, and KMS
►**Networking and Internet Protocols:** TCP/IP, DNS, FTP, SMTP, HTTP/HTTPS , SSH, SSL Certificates
►**Code Quality Analysis:** SonarQube, Trivy
►**Programming Languages:** C, C++
►**DataBase:** AWS RDS, MySQL
►**Containerization Tool:** Docker
►**Container Orchestration**: Kubernetes
►**Version Control:** Git, GitHub
►**(CI/CD) Tools:** Jenkins, GitLab
►**Ticketing Tool:** BMC Remedy

TRAINING PROGRAM

• Participated in Seminar on AWS Two-Tier Application Architecture and Best Practices
• Participated in Workshop on AWS Cost Management and Optimization Strategies
• Regulatory Compliance Training in Data Protection and Security

ACHIEVEMENTS & AWARDS

• AWS Certified Cloud Practitioner (CLF-C01)
• AWS Certified Solutions Architect – Associate (SAA-C02)
• ITIL v3 Foundation (Certified Trainee)
• Email Etiquette Certified
• CompTIA Certified Network+ (N10-008)
• Best Performing Team Award - FY22(Q4) for Exceptional Performance
• Cheers to Peers Award - Recognized by Coworkers for Outstanding Contributions

DECLARATION

I hereby declare that above furnished particulars are true to the best of my knowledge and belief.
