PROFESSIONAL SUMMARY

Highly skilled and dedicated Flutter developer with over 6+ years of professional experience. Proficient in designing, developing, and deploying robust and scalable cross-platform mobile applications using Flutter framework. Demonstrated expertise in translating client requirements into innovative and user-friendly app interfaces, ensuring seamless integration of back-end services, and optimising app performance.

EXPERIENCE

Flutter Developer–CodeTech Solution,India

August 2018 - August 2020

- Developed and maintained cutting-edge mobile applications using Flutter, an open-source UI software development kit, to deliver seamless user experiences across Android and iOS platforms. Initiated a self-directed learning path to master the fundamentals of Flutter, an open-source UI software development kit, through online resources, courses, and hands-on practice. Acquired proficiency in integrating API calls into Flutter apps using RESTful APIs, enabling data retrieval and dynamic content updates from remote servers. Collaborated with cross-functional teams, including designers and product managers, to gather requirements and ensure timely delivery of high-quality features and enhancements.

SeniorFlutterDeveloper– TangibleIT,Mexico

September 2020 -December2022

- Implemented complex UI designs, incorporating animations, transitions, and custom widgets to create engaging user experiences while adhering to design guidelines and best practices. Integrated RESTful APIs to enable data retrieval, storage, and synchronisation, ensuring seamless communication with server-side systems.
- Conducted thorough testing and debugging of applications, identifying and resolving issues to deliver high-quality, bug-free software. Actively participated in code reviews, providing constructive feedback to team members and ensuring adherence to coding standards and best practices.
- Proactively researched and adopted new technologies, libraries, and tools to enhance app development processes, optimise performance, and improve user experience.

Senior Flutter Developer– DoBeDo Soft

January2023 -October 2024

- Utilised the Bloc and Cubit architectural patterns to manage state effectively and enhance code reusability, fostering a more maintainable and scalable codebase. Implemented and executed comprehensive unit tests using Flutter's built-in testing framework and tools like flutter_test, ensuring optimal code coverage and minimising the potential for bugs and regressions.

TECHNICAL KNOWLEDGE

Skills: Flutter, Dart, C, C++, Android, GitHub, Trello, Jira,, Remote Config, In-App-Purchase, Spring Boot

Cloud Foundry: Google Cloud Platform

Database and ORM: MongoDB, MySQL and DynamoDB.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Engineering
Parul University, Gujarat-India.

July 2014 – April 2018
(G.P. A: 8.56/10.0)

PROJECTS

Stoke Pe

Flutter Developer

Environment: C / C++ / Dart / Flutter / Firebase / MySQL / Spring boot / Azure / Jira / Trello / Github / Bitbucket / Gitlab
Description : Android App, iOS App, Fin-Tech Startup, Multiple Login, groundbreaking platform which offers learning modules and realistic trading tournaments in the stock market to build future ready confident investors.
Responsibilities:

- Understood the requirements from clients and handled the client communication along with the development.
- Created UI and integrated API's in app..
- State management using GetX.
- Android App - <https://play.google.com/store/apps/details?id=com.stockpemarket&hl=en-IN>

Baysten

Flutter Developer

Environment: Dart / Flutter / Firebase / Windows / MacOS / MySQL / Github / Bitbucket / Gitlab .
Description:

BAYSTEN is a revolutionary mobile platform facilitating seamless collaboration between users and companies. Through precise AI-assisted searches and detailed profiles, it connects talent with opportunities, service providers with buyers, and fosters cooperation worldwide. Its diverse networking opportunities empower users to build communities, find specialists, and explore job opportunities, while offering companies efficient recruiting processes and collaboration avenues. With a unique focus on simplifying connections and providing a robust search engine, BAYSTEN stands as a game-changer in the business ecosystem.

Responsibilities:

- Understood the requirements from clients and handled the client communication along with the development.
- Created UI for the app and desktop app..
- Integrated app with firebase and Rest APIs..
- Wrote firebase functions.
- Write Test Cases For App and app for desktops..
- Android App - <https://play.google.com/store/apps/details?id=com.baysten.aketie>
- iOS App - <https://apps.apple.com/in/app/baysten/id6444569659>
- Windows App : <https://apps.microsoft.com/store/detail/baysten/9P6W2X1T3NXR?hl=en-us&gl=us>
- MacOS APP : <https://apps.apple.com/in/app/baysten/id6444569659>

Akshayakalapa Organic Milk

Flutter Developer

Environment: Dart / Flutter / Firebase / MySQL / Jira / Github / Bitbucket / Gitlab / MoEngage / Remote Config / In-App-Purchase.

Description: A Grocery App Where users purchase all grocery items with specific schedule and quantities, Users Add Vacation And Subscription Mode as self choice.

Responsibilities:

- Understood the requirements from clients and handled the client communication along with the development.
- Created architecture of App
- Created UI and integrated API's
- State management using bloc architecture.
- Manage ! Lakh plus Users daily activity and crashes using MoEnage And Crashlytics.
- Android App - <https://play.google.com/store/apps/details?id=com.mrmilkman.akshayakalpa&hl=en-IN>
- Ios App - <https://apps.apple.com/in/app/akshayakalpa/id1490258061>

VilvahStore

Flutter Developer

Environment: Dart / Flutter / Firebase / MySQL / Github / Bitbucket / Gitlab / jira / Google Cloud Platform .

Description: Vilvah Store is Crafted with plant-based ingredients and backed by modern science, Vilvah skin and hair care products are trusted by over 25 lakh customers.

Responsibilities:

- Understood the requirements from clients and handled the client communication along with the development.
- Created UI for the app.
- Integrated app with firebase.
- Wrote firebase functions.
- Write Test Cases For App.
- State management using bloc architecture.
- Android App - <https://play.google.com/store/apps/details?id=com.vilvahstore&hl=en-IN>
- Ios App - <https://apps.apple.com/in/app/vilvah-store/id1635766051>

CERTIFICATION

Mobile App Development

July 2018

AWARDS & LEADERSHIP

- **Cloud and Cluster Computing (2018)** - Investigated numerous cloud computing use cases and practically provisioned a local environment to virtualize 5 stand-alone workstations.
- **Winter training program by Azure Skynet Solutions (2017)** - Completed a training course in developing Android applications and released 8 applications with database integration.
- **Smart Gujarat Hackathon** - Selected for regional level in Smart Gujarat Hackathon. Created a website related to framing culture can keep track of 10,000 equipment.
- **Mentorship** – Guided 7+ members team towards company's roles and responsibilities. Additionally, provided assistance for onboarding new clients and exploring on-premises architectures.
