PERSONAL DETAILS

- Total Experience 3 Years 3 Month
- Current Location Mysuru
- Gender Male

SKILLS

- C
- C++
- Python
- UI/UX
- HTML
- CSS
- Linux

TECHNICAL SKILLS

- Git
- Github
- JIRA
- Klockwork
- Bazel
- Sonarqube
- Teamscale
- Zuul
- Clang Tools
- Code Beamer
- Lutron Designer
- Wireshark
- TOP (Transfer Output Parser)
- Visual Studio Code
- Bitbucket Server
- Artifactory
- Confluence
- Wiki
- Docker
- Jenkins CI
- Tmux
- Figma
- Unit Testing Framework

PROFILE SUMMARY

Software Engineer with 3 . 3 years of experience.Adept in C, C++(C++11 /14/17), and Python Programming Languages. A team player with strong communication skills and passionate about solving problems. Seeking a challenging role as a Software Engineer where I can utilize my expertise in C++, Python, and Linux to develop cutting-edge solutions.

EDUCATION HISTORY

Graduation

Course	B.Tech/B.E.(Electrical and Electronics)
College	G. Pulla Reddy Engineering College
Year of Passing	2021
Grade	7.2/10

WORK EXPERIENCE

Oct 2021 to Present

Software Engineer at L&T Technology Services (LTS)

- Engineering and R&D (ER&D) services in technology spaces such as Embedded Systems, Transportation, Medical, 5G and Artificial Intelligence.
- Acquired expertise in client-specific tools related to Lutron, such as Lutron Designer, enhancing proficiency in client-specific software environments.
- Programming well-designed, testable, efficient code as well as producing specifications and determining operational feasibility.
- Documented learning materials and training efforts, facilitating knowledge sharing and continuous improvement within the team.
- Mentored trainees in advanced C++ programming(OOPS), emphasizing AUTOSAR C++14 compliance and best practices in code inspection and unit testing.
- Contributed to the development and implementation of training programs, ensuring the effective transfer of knowledge.

PROJECTS

- Shell Scripting
 - Unit Testing
 - Functional Testing
-

LANGUAGES KNOWN

- Hindi
- English
- Telugu

LUTRON ELECTRONICS, 13 Months

Project at LTTS for Luton Electronics

- Worked as an associate developer for handling job issues ,bugs occurring on customer sites, and addressed multiple bugs for the release of new firmware.
Developed and maintained code for Lutron products, focusing on processors utilized in both commercial and residential areas.
- Collaborated within a high-priority team dedicated to resolving urgent job issues.
- Contributed to the core team, providing essential support and expertise.
- Engaged in C++ codebase development, including module development and utilization of GTest for testing.
- Demonstrated proficiency in client communication, regular status reporting, and effective project coordination.

BMW, 18 Months

Project at LTTS for BMW

- Contributed to a BMW pilot project aimed at achieving safety quality Key Performance Indicators (KPIs) to ensure ISO26262 ASIL B compliance.
- Utilized Bazel and SonarQube for project management and code quality assurance.
- Rectified AUTOSAR C++ 14 non-compliance issues within the BMW Foresight library, ensuring adherence to industry standards.
- Implemented optimization techniques and conducted extensive refactoring of source code to enhance code coverage and performance.
- Executed unit testing procedures utilizing GTest framework to validate functionality and conducted comprehensive code inspection within the BMW Foresight library.
- Utilized AOU (Assumption of Usage) and numerical checklist to ensure adherence to industry standards and enhance code quality.
- Executed optimization and refactoring tasks to uphold code quality and align with BMW standards.

AWARDS:

Received spot award 2 times.
