

PRIYAMVADA AKULA

B.TECH IN COMPUTER SCIENCE ENGINEERING

ANDHRA UNIVERSITY- VISAKHAPATNAM

priyamvadaakula1999@gmail.com

Phone No: 8309529406

Visakhapatnam, India.

ACADEMIC DETAILS:

Bachelor's in Technology
Andhra University
B. Tech - (2017-Present)
Marks Obtained-(78%)
07/2017 – 07/2021

Higher Secondary
Sri Gayatri Jr. College-2017 Marks
Obtained-(77%)

Secondary
Bhasyam High School-2015
Marks obtained-(8.5%)

Father Name : Akula Chandra Sekhar

Date of Birth : 08th-Oct-1999

Language : English,
(Full Professional)
Telugu,
(Full Professional)

Hobbies : Gardening,

ACADEMIC PROJECTS:

- Online Examination,
(Andhra University)
(07/2020 – 12/2020)
- Portfolio Microsoft,
(Microsoft gold internship)
(09/2020 – 09/2020)
- Interior Design,
(Microsoft gold internship)
(09/2020 – 10/2020)

Address:

S/o Akula Chandra Sekhar
D.No:13-186, LG Polymers Road,
RRV Puram Post, Gopalapatnam,
Visakhapatnam-530027

CAREER OBJECTIVE:

Looking forward to a challenging and rewarding position in the industry by utilizing my technical and managerial skills to the optimum and growing long with the company.

TECHNICAL SKILLS

Programming Skills : HTML, CSS, SQL, Programming Languages

Tools : MS Word, MS Excel, PowerPoint, QXDM,
QCAT, PCAT, EMS, Wire Shark

Operating system : Windows, Linux, OS

CERTIFICATES:

- C Language - (10/2017 - 11/2017)
- C++ Language - (01/2018 - 03/2018)
- Core & Advanced JAVA - (05/2019 – 06/2019)
(Core Java, Advanced Java with JDBC, Java Script, Servlets, I/O File Operations, HTML, CSS Java Servlet pages etc...,)
- Web Development - (09/2018 – 09/2018)
(web development work shop through engineer's hub in 2018)
- Internet of Things- (12/2019 – 12/2019)

ACHIEVEMENTS:

- Designed year book for our college and also created websites
- Participated many workshops in Andhra university
- Organizing and participated in many cultural activities
- Participating of internships through got opportunity to learn software solutions and get different projects in different aspects

OUT STANDING PROJECTS:

- To create website for any institution.
- To create a wedding planner web app.
- To create a static E-Commerce web site.

EXPERIENCE:

Organization : Rakuten symphony
Role : Member of technical staff
Department : Quality Assurance
D.O.J : Nov-2021 to Till Date

- Passionate about expanding skill sets, including mastering automation testing through tools such as Selenium and programming languages like Java. Committed to gaining in-depth proficiency in the application of these technologies to ensure the seamless implementation of automated testing processes. Actively seeking opportunities to apply this knowledge in optimizing software testing procedures and enhancing overall product quality.
- As a manual testing professional in the telecommunications industry since November 2021, my daily job revolves around ensuring the smooth operation and reliability of a 4G network on a Linux-based platform. here is a breakdown of my responsibilities and tasks
- Conducting Testing: I perform comprehensive testing of various components of the 4G network, including voice, data, internet, and signals. This involves executing test cases, analyzing results, and identifying any anomalies or issues.
- Troubleshooting and Issue Resolution: I utilize my deep understanding of the intricacies and functionalities of the 4G network to troubleshoot and resolve network-related issues. This includes investigating connectivity problems, signal fluctuations, and data transfer inconsistencies.
- Collaboration and Analysis: I work closely with cross-functional teams to analyze test results, collaborate on solutions, and implement necessary changes to enhance the network's performance. This involves sharing insights, discussing findings, and brainstorming improvements.
- Documentation and Record-Keeping: I maintain meticulous documentation of test procedures, results, and encountered issues. This ensures accurate records for future reference, analysis, and tracking of any recurring problems.
- Continuous Learning and Adaptation: I stay updated with industry trends and emerging technologies related to 4G networks. This allows me to continually enhance my expertise and adapt testing approaches to align with the evolving requirements and advancements in the field.
- Attention to Detail and Problem-Solving: With a strong focus on detail, critical thinking, and problem-solving skills, I meticulously identify and resolve network-related issues. I prioritize thoroughness to ensure the highest level of quality and user satisfaction.
- Meeting Participation and Knowledge Sharing: I actively participate in team meetings and discussions, contributing insights, exchanging knowledge, and leveraging collective expertise to enhance testing methodologies and processes.

- **Timely Delivery and Adherence to Standards:** I strictly adhere to testing protocols, standards, and timelines to ensure the timely delivery of accurate test results. This minimizes disruptions, maintains network stability, and supports overall project objectives.
- **Support and Collaboration:** I act as a reliable point of contact for colleagues, providing support, guidance, and expertise related to 4G network testing processes and procedures. I am readily available to address queries, share best practices, and collaborate on resolving testing-related challenges.
- **By consistently fulfilling these responsibilities,** I contribute to the overall quality and reliability of the 4G network, ensuring a seamless user experience and high levels of customer satisfaction.
- **QXDM (Qualcomm® eXtensible Diagnostic Monitor):** Proficient in capturing Qualcomm-based mobile signaling and data details logs for precise debugging purposes. Skilled in generating diagnostic logs, events, and messages as .isffiles, essential for comprehensive data analysis during the Integrate and Verify phases. Experienced in meticulously reviewing regression, lab, and field test results to ensure seamless verification.
- **QCAT:** Adept at utilizing QCAT for the analysis of data, particularly in the context of lossy compression. Skilled in altering the size of data files in binary and converting binary data files to texture files. Capable of leveraging QCAT to meticulously analyze logs and convert files from hdf format to text format.
- **PCAT (Qualcomm Product Configuration Assistant Tool):** Well-versed in the use of PCAT to lock bands on the UE side to attenuate band signals, ensuring optimal signal management and performance.
- **EMS (Element Management System)**:** Experienced in the management of specific types of one or more network elements within a telecommunications management network. Proficient in utilizing EMS, a software tool designed to efficiently manage all network elements, ensuring smooth and effective network operations.
- **Wireshark:** Proficient in utilizing Wireshark, a comprehensive packet sniffer and analysis tool. Skilled in capturing network traffic from various sources, including ethernet, Bluetooth, wireless (IEEE. 802.11), token ring, and frame relay connections. Experienced in effectively storing data for subsequent offline analysis, ensuring precise network diagnostics and troubleshooting.
