

Pranita Panke

Junior Software Engineer

Dedicated IT professional with a strong foundation in software development and AI training. Seeking to leverage my expertise in programming, project evaluation, and model assessment to contribute to innovative AI-driven solutions in a dynamic and collaborative environment.

Email: pranitapanke1999@gmail.com

Address: Chhatrapati Sambhajnagar

Phone: +918329353280

Experience

Dec 2023 - Aug 2024

Freelance Linguistic Evaluator and Annotator

Outlier Remote

Evaluated the quality of machine-generated translations, ensuring compliance with guidelines and accuracy.

Annotated errors in translations, categorizing issues by type and severity.

Contributed to the enhancement of LLM engines by validating the accuracy of responses under tight deadlines.

Developed training datasets for AI models, ensuring data quality and optimizing training processes.

May 2024 - Present

Ai Data Trainer

Alignerr Remote

Trained and maintained LLMs and chatbots using a variety of programming languages, including Python, Java, SQL, TypeScript, JavaScript, Cypher, GraphQL, Go, C++, and PHP, ensuring optimal performance and functionality.

Collaborated with cross-functional teams to define, design, and implement new features, enhancing project outcomes and user experiences.

Conducted code reviews, identified bugs, and implemented solutions to optimize code performance and reliability.

Worked on various coding projects, including: viridian-python-eval-and-prod viridian-java-eval

prism-javascript-prod viridian-cobol-prod

genesis-3-eval

prism-c-and-c-plus-plus-prod

genesis-safety2-hindi

Education

Aug 2022 - Jul 2024

Master's Degree in Computer Applications

Savitribai Phule Pune University : 76.85% Pune

Jul 2018 - Aug 2021

Bachelor's Degree in Computer Science

Dr. Babasaheb Ambedkar Marathwada University : 75.37% Chhatrapati Sambhajnagar

Languages

English

Advanced

Hindi

Advanced

Marathi

Native

Skills

Programming

Languages: Python, Java, C++, SQL, JavaScript

Attention to Detail: Meticulous in identifying and correcting code and data errors

Web Technologies:

HTML, CSS, React, Angular

Collaboration:

Effective communication with cross-functional teams and stakeholders

Database

Management:

MySQL, MongoDB, SQL Server

AI/ML Experience:

Training datasets, model evaluation, regression analysis

Projects

viridian-python-eval-and-prod:

Developed evaluation metrics and testing protocols for Python applications, focusing on LLM training methodologies.

Created comprehensive test cases to validate model accuracy and performance under various scenarios

viridian-java-eval:

Created and tested Java applications, enhancing their performance and scalability within chatbot frameworks.

Worked on optimizing algorithms to improve response times and efficiency in processing user queries.

viridian-c-and-c-plus-plus-eval:

Evaluated and optimized C/C++ code for efficiency and accuracy in LLM applications.

Collaborated on integrating LLMs into existing C/C++ frameworks, ensuring smooth communication between components.

viridian-cobol-eval: Enhanced COBOL applications, ensuring optimal performance and integration with modern systems.

prism-javascript-prod:

Worked on production C/C++ applications, ensuring robust performance in AI-driven solutions.

Conducted performance profiling to identify bottlenecks and optimize resource usage.
