Academic Details

- o **Bachelor of technology (B.tech) ECE**
MAHAKAL INSTITUTE OF TECHNOLOGY ,
UJJAIN;
CGPA: 8.03
(2023)

Soft Skills

Analytical | Problem-solving | Leader | hardworker

Technical Skills

- o **Programming:**
Python, AI/ML, LLM, NLP, Flask API, SQL, Tableau.
- o **Frameworks:**
LIKE - Tensorflow, pytorch, keras, sklearn, langchain, RAG etc.
- o **softwares:**
hugging face, github, azure, vs code, colab, jupyter, APIS.

Projects

TRANSCRIPTION MODEL (LLM)

Tools: LLM, AZURE, PYTHON, NLP

Roles: USING INTERN BUILD A SMOOTH SPEECH TO TEXT MODEL FOR VOICE DUBBING.

HEALTH CHATBOT

Tools: LANGCHAIN, RAG, ML, PYTHON.

Roles: BUILD A CHATBOT FOR ANY TYPE INJURIES OR PROBLEMS.

Profile Summary

- o Experienced as a AI ENGINEER at ANTIAN ADVANCED TECHNOLOGY, showcasing proficiency in **LLM (MISTRAL 7B), NLP, MACHINE LEARNING, RAG** fundamentals, leading to successful project outcomes.
- o **Achieved** by reduce a search time and make some adjustment in google search results and make a proper answer for users in search engine.
- o Developed a flask api interference for user to interact this and ask question by a non technical person smoothly.
- o I aim to design scalable, data-driven models and applications that solve complex problems and deliver actionable insights. Seeking a dynamic role to contribute to AI advancements and collaborate with cross-functional teams for impactful outcomes.

Work Experience

AI ENGINEER

ANTIAN ADVANCED TECHNOLOGY., NEW DELHI

APR 2024–CURRENT

Responsibilities:

- o Developed LLM (MISTRAL 7B) model for solution a search engine project.
- o Developed extension or fantasy cricket team projects.
- o Add langchain or google search results in this and find using scrapping methods a better results like user ask question so using vectorization give a latest results.
- o Add also a flask api interference for non technical person
- o Tools use :- LLM, NLP, LANGCHAIN, ML, KERAS, AZURE, HUGGING FACE etc.

DATA SCIENCE INTERN

VLIPPR., NEW DELHI

OCT 2023–APR 2024

Responsibilities:

- o Conducted audio transcription using speech-to-text services from GCP API, Azure API, AWS API, and OpenAI Whisper.
- o Developed audio translation models for low-resource Indian languages using RVC and Coqui TTS.
- o Implemented speaker diarization using Resemblyzer and NVIDIA NeMo Titanet.

TEACHING ASSISTANT

CODING NINJAS., WFH

SEP 2023–MAR 2024

Responsibilities:

- o Debugged student code issues and provided solutions.
- o Utilized communication and problem-solving skills to explain solutions effectively to students.

CERTIFICATIONS

- Data Science and Machine Learning | coding ninjas (Remote) | Apr 2023–Dec 2023.
- TA as a coding ninjas | coding ninjas | Feb 2024
