ABOUT ME

- Demonstrated 3 years professional experience in **designing** and **implementing** software solutions, seasoned skills in **C++**, **JavaScript** and **React JS**.
- Aim to boost skills and secure a challenging, growth-oriented position in an organization where one can improve and utilize expertise while being resourceful and innovative for the organization.

WORK HISTORY

Software Engineering Specialist, 05/2022 - Current

Dassault Systemes Solutions Lab Pvt. Ltd – Pune, India

- Understood industry scenario and provided solution for requirements.
- Delivered enhancement of existing algorithms to Display Selection Set for Assemblies, in product structure/selection group tree, reduced computation around 30% and supported reported issues by customers by analyzing all corner cases.
- Worked on xml parser on web front to manage the memory limitation which is causing error while reading xml size greater than 512mb.
- Worked on outlines generation logic for geometries and manages the cases to calculate outlines only for desired geometries.
- Worked on quality management, by optimizing and refactoring code using programming patterns for code reusability.
- Ensuring code coverage and quality by writing unit test cases and recoding visual object functionality test.

Technical Associate, 06/2021 - 04/2022

Wunderman Thompson Commerce – Noida, India

- Understood the banking business requirement and described use cases, followed SDLC lifecycle and agile way of work.
- Delivered web pages for CSO Role, using reusable components of single page web application and API integration, ensuring accurate request and response by testing with Postman tool.
- Implemented physical bank form documents to digital forms using Formik along with validation for various form fields like phone number, email, etc..to preserve accurate input format.
- Built logics to bridge backend and front end with state management using JS, TS and Redux.
- Developed Graphical User interface design with libraries like Chakra UI and Material UI assuring easy access to end user.
- Dedicated support and enhancement for live application and new deliveries.

SKILLS

- **Programming languages:** C, C++, Python, Java.
- **Web development:** HTML, CSS, JavaScript, Typescript, React JS, Redux, Redux saga, Formik, Chakra UI, Material UI, Tailwind.
- **Database:** Oracle.
- **Operating System:** Windows family, LINUX.
- **Version Control Tool:** Git, Microsoft SCM.
- **Project Management Tool:** Atlassian(Jira, Confluence), Dassault Systemes (Project Planner).
- **Development Tools:** Visual Studio, Visual Studio Code, Eclipse.

EDUCATION

Bachelor of Technology: Computer Science, 06/2021

ITM Group of Institutions - Gwalior, India

Higher Secondary: Science And Mathematics, 05/2017

M.L.B. Inter College - Jalaun

High School: Science, Social Science And Mathematics, 05/2015

M.L.B. Inter College - Jalaun

CERTIFICATIONS & TRAININGS

- Certified in **C++ R&D DEVELOPMENT, R&D Javascript level 1** from **Dassault Systemes**.
- Training in **Front-End development** in WTC.
- Python: Training, **Durga Soft Solution [90+ hrs]**.

ACHIEVEMENTS

- Secured **Silver badge** in national coding competition organized by RAIT, Mumbai associated Mentor Buddy and Computer Society of India.
- Secured Level A2 of Business English Preliminary (BEC), Cambridge English Assessment.
- Awarded as 3rd runner up in Training assessment at SIEP, ITM University.
