SUMMARY

Python developer with expertise in generative AI and a proven track record in developing customized solutions and data extraction systems. Proficient in implementing RAG techniques, automation, and fostering effective collaboration within teams to deliver scalable and impactful solutions. With three years of industry experience, adept at leveraging expertise to drive innovation and achieve business objectives.

EDUCATION

M. Kumarasamy college of engineering

Bachelor's Degree in Computer Science and Engineering
2017 – 2021

PRIMARY SKILLS

- Python
- Generative AI
- Data Extraction
- RAG

ADDITIONAL SKILLS

- Pandas
- Semantic search
- Langchain
- SQL
- Azure
- OCR

TOOLS

- PgAdmin
- WinScp
- Postman
- Jira
- Confluence
- Visual studio code

CERTIFICATIONS

- Infosys certified Gen Ai Professional - Foundation | 2024
- Infosys Certified AI Professional | 2023
- Infosys certified Python programmer | 2022

PROFESSIONAL EXPERIENCE

Gen Ai Developer

Infosys Ltd. | 2023 - Current

- Developed and implemented custom Gen Ai based Python scripts to meet diverse client requirements.
- Spearheaded a Proof of Concept (POC) project focused on Health and Safety, extracting key information from unstructured documents.
- Utilized a graph database to structure and manage extracted data for efficient analysis.
- Applied the Retrieval-Augmented Generation (RAG) approach to enhance the retrieval of relevant information in response to user queries.
- models used : gpt-4-8k, gpt-4o, text-embedding-ada-002

Python Developer

Infosys Ltd. | 2021 - 2023

- During my role, I meticulously analyzed over 500 documents, gaining insights into their structure and complexity.
- Utilizing this understanding, I developed advanced machine learning models aimed at optimizing attribute extraction.
- In parallel, I designed and implemented robust algorithms (RDs) to accurately extract crucial values from diverse documents.
- Through these efforts, I successfully achieved an impressive 86% accuracy rate in attribute extraction tasks.
- This accomplishment significantly reduced client time and effort by a remarkable 50%, enhancing overall operational efficiency.
- My contributions not only streamlined processes but also exemplified a commitment to leveraging technology for tangible business benefits.
- Created Utilities to automate tasks to generate reports
- Additionally, I focused on automating email processes, effectively minimizing manual workload and enhancing efficiency.
