ROLES AND RESPONSIBILITIES

Jun 2021 – Till date

Program Manager – Engine Management PF Software (BOSCH)

- Lead the team to develop a new customer platform for STLA GPEC5 projects.
- This project was the first successful venture of STLA (GPEC5) with Bosch which later become the base for all STLA portfolio.
- Technical coordination, variant management, and maintenance for Engine Position Management platform software.
- Manage multiple projects together and provide regular project status to management.
- Facilitating task planning, daily stand-ups, task reviews, and retrospectives.
- Helping teams to identify and address impediments in close collaboration with the customers leading to reduced escalations.
- Mentoring & Coaching team members and providing feedback for improvement
- Successfully lead the taskforce working on module ownership transfer from Germany to India.
- Involved in identifying the topics, making time plan, identifying competent resource, preparing training plan, and then successfully leading this team from offshore location.
- Facing Global Customers and managing teams in US, Germany and India.
- Managing schedule, planning, audit, PSR, PQSR and team performance.
- Focus on Quality and productivity improvement initiatives and establish continuous improvement plan in place.

Jun 2018 – May 2021

Lean & Agile Consultant – Powertrain Solutions & Automotive divisions (BOSCH)

- Wave planning and scheduling of improvement projects.
- Lean Value Stream Management by identifying and eliminating waste, optimizing flow efficiency, reducing bottlenecks, and enabling continuous improvement.
- Successful implementation of Lean and achieved beyond productivity goals.
- Leadership refinement by implementing Lean leadership system.
- Conducted various trainings/workshops including Feedback and Coaching.
- Unique solution, which simplified Lean tools, and it was accepted globally.
- Transformed non-supportive customer into collaborative customer.
- Successfully implemented Cost saving measures for Various Departments.
- Established Digital lean measures for various cost centres.

Feb 2010 – May 2018

Associate Project Manager – Automotive Steering & HICs (BOSCH)

- Responsible for managing the development project for Automotive steering components and HIC's for multiple customers.
- Creation of Project level agreements.
- Planning, Executing, Monitoring & delivering the project as per project contract.
- Management reporting, stakeholder management & communication.
- Project team planning – Resource plan based on in-house or outsourcing.
- Interface to Bosch internal and external customers.
- Co-ordination with CFT for project reviews and deliverables.
- Ensuring Project goals of Cost, time and quality including customer satisfaction

Mar 2009 – Jan 2010

Engineer R&D, Weatherford India Private Limited, Mumbai

- Design and simulation of various types of Piston pump for Global Market.
- Design calculations and tolerance stack up analysis.
- Conduct design reviews with cross functional team.

July 2006 – Mar 2009

Deputy Manager, Dynamics Technologies Limited, Bangalore

- Design & development of hydraulic Gear Pumps, DCV, hydraulic motors for Global Market (John Deere, M&M, ITL, TAFE etc).
- Conducted various types of product validation tests like performance test, Pressure Cycle test (Impulse Test), Continuous pressure test, High temperature test & Cavitation's Test etc.

AWARDS AND CERTIFICATIONS

- PMP Certification in 2021 with AT in all domains.
- CSM certified professional
- Received Best Team award 2023 in the department.
- Received OTA in 2022 for excellent handling of Project.
- Won Performance Award for Value addition to customer, Value addition to project/group and Quality in delivered software.
- Completed A2 level of German language course in Bosch from Goethe Institute.

SKILL SET

Software Tools

- Requirements Engineering - ASPICE, DOORS, IBM ClearQuest, FMEA, DRBFM.
- Configuration Management: RequestOne, eASEE.
- Modelling and software development - Embedded C, ASCET, QAC, MISRA
- Utility Tools: Jira, Microsoft Office, Microsoft Project Professional, Gen-AI in project management.
- AI/ML, Gen AI, Prompt engg, Github Co-pilot, Agentic AI, Data Science, Azure, AWS, DevOps, CI/CD.

Professional Skills

- Agile, Waterfall and Hybrid development Life Cycle experience.
- Independent problem solving with high flexibility towards projects and tasks, good customer handling experience.
- Work experience in ASPICE L2, CMMI Level 5, Scrum, Agile, LEAN & KANBAN, SAFe Framework.

ACTIVITIES AND INTERESTS

- Table Tennis, Photography & Travel.
