

RESUME

NAME : - ANIL GURUDEO DANGE

Company : - Allegiance consultancy services Pvt Ltd. IT services company

Mobile No.: - +91- 9881818615

E-mail: - anilgdange10@gmail.com

LinkedIN URL: [linkedin.com/in/anil-g-dange-6893652a5](https://www.linkedin.com/in/anil-g-dange-6893652a5)

PROFILE SUMMARY:

- 2.5+ years of Experience as a **Linux System Administrator, AWS & Cloud Engineer.**
- Have Worked on **AWS and Microsoft Azure Cloud**, helped many **AWS, Azure** customers on
- **Architecture Design** of cost-effective scalable **Cloud** based solutions using **IAAS/PASS** models
- Have worked on **Docker container, image management, Implementation of docker** best practices
- Have worked on database services **AWS S3, AWS RDS, Dynamo DB, Azure Storage account** and **Azure SQL** management.
- **Virtual Network** - Creation and configurations of **VNET** and **Subnets**, **Express Route, AWS VPC, VNET** and **VPC Peering. Nagios** as monitoring tool form **Azure VMs**
- Have worked on **AWS Cloud** Formation to create environment, **AWS Cloud** front.
- Experienced in strategy and practical implementation of **AWS CloudSpecific technologies** which include **EC2, EBS, S3, VPC, RDS, ELB, ECS, Cloud formation, Cloud watch, RDS MySQL**
- Experience working on Multiple **AWS instances**, set the **security groups, Elastic Load Balancer** and **AMIs, Auto scaling** to design cost effective, **fault tolerant** and **highly available** systems
- Worked on Setting up **Java base** Web Applications using **Apache Tomcat.**

- Having working experience on **Elastic load balancer** to distribute the traffic across multiple **node servers**.
- Having experience in managing **MySQL databases** and **replication servers, database users, and backup of databases**.
- Experience in managing **Data Backup, Backup storage configuration, monitoring of backup jobs, and restoration using the Veritas backup Exec 22 Tool**.
- Monitoring data center infrastructure, Application services, Disk and Memory, and Bandwidth utilization using **Nagios Monitoring Tool** and **Cloud Monitoring** using **Azure Monitor**.

WORK EXPERIENCE (SEP-2021-2023)

@Allegiance Consultancy Services Pvt. Ltd, Pune (SEP- 2021-Till Now)

As a **Linux system Administrator/Azure/Aws**

Where I performed-

- Involved with **remote System Administration of Data Centre Environment**.
- Worked on **NFS** for Sharing Directories and Volumes.
- Configured **LVM** (Logical Volume Manager) to manage volume group, logical and physical partitions and importing new physical volumes.
- Configured **Firewall** for system security.
- Manage Password less **SSH** using **ssh-keygen** with **RSA** encryption.
- **FTP** and **SFTP** to transfer data between servers (Production and Development Used)
- Configured **Apache web server** using **http** and provide encryption with **SSL Certificate**.
- work on **Elastic Load Balancer** and **Auto Scaling** of a server.
- Have a good knowledge of creating **S3 Buckets**.
- Website hosting using **Route 53**.
- Created monitors, alarms and notifications **for EC2 hosts** using **Cloud Watch**.
 - Worked on version controller tools like **GIT**
- Involved in designing and deploying multitude applications utilizing almost all **AWS stack** (Including **EC2, Route53, S3, RDS, IAM**) focusing on high availability, fault tolerance, and **auto-scaling** in **AWS Cloud Formation**.
- Setup and build **AWS** infrastructure various resources, **VPC EC2, S3, IAM, EBS, Security Group, Auto Scaling**, and **RDS** in **Cloud formation JSON** templates.

- Worked on Amazon **AWS EC2** cloud services for installing, **configuring and troubleshooting** on various Amazon images like **Amazon, Linux AML, Red hat Ubuntu**
 - Launched Amazon **EC2 Cloud Instances** using **Amazon Images (Linux/ RHEL)** and configuring launched instances with respect to specific applications.
 - Installed and set up **Nagios** monitoring system on a dedicated Amazon EC2 server, developed several custom plugins for monitoring availability and performance of **AWS EC2 instances**,
 - Monitored availability and performance of production and development environments (servers, databases, network and Web services)
-

PROJECT:

Cloud Project: Wheel Tyre Inventory management.

Docker project: voting apps

Mail Server Project: Send the SMTP mail from one mail server to another using postfix mail server

LAMP setup for todo app [ubuntu os]

Skills:

Operating System : Linux (Redhat7, Ubuntu 20.04), Windows server 2019, VMware VSphere (ESXI)

Issue Tracking Tool: Redmine Scripting Language/Tools: Bash Shell Scripting, Ansible, Terraform.

Tool and Technologies: AWS, Azure Cloud, Git, Docker, Ansible, MySQL, Nagios, DNS, Apache Tomcat

PERSONAL INFORMATION

- **Name:** Anil Gurudeo Dange.
 - **D.O.B:** 24-05-1993
 - **Gender:** Male
 - **Marital Status:** Unmarried
 - **Language:** English, Hindi, Marathi.
-

EDUCATIONAL QUALIFICATION

- B.A. From, YCMOU NASHIK (2016)
-
