

 SUMMARY

"Aspiring professional seeking a dynamic role in a challenging and growth-oriented environment. Leveraging internship experience, I aim to apply my skills and knowledge effectively, driving both personal and organizational growth. Committed to making a positive impact through dedication, adaptability, and continuous learning."

 EXPERIENCE

- Cloud Devops Engineer (Arosys)

Dec 2023 - Present

 - Manage servers, ensuring their smooth operation, including configuration, maintenance, and implementing backup strategies.
 - Monitor server utilization, analyzing data to optimize performance and resource allocation.
 - Engage in diverse research projects focusing on GCP (Google Cloud Platform) environment.
 - Proficient in GCP cloud environment, with hands-on experience in its diverse services and functionalities.
 - Expertise in server management, backup creation, and utilization monitoring.
 - Active involvement in multiple research endeavors, utilizing GCP's capabilities for innovative solutions.
 - Strong analytical skills applied to optimize server performance and resource allocation.
 - Collaborate on various research initiatives, contributing expertise in cloud environments and server management.
- Assistant Cloud Coordinator (Jetking)

July 2021 - Jan 2023

 - Managed and maintained the lab environment, ensuring smooth operations and functionality.
 - Assisted numerous individuals in utilizing lab facilities, providing technical support and guidance as needed.
 - Proficiently managed servers, including maintenance, troubleshooting, and optimizing performance.
 - Acquired expertise in Linux systems, developing skills in installation, configuration, and administration.
 - Gained hands-on experience in cloud computing, utilizing platforms for storage, computation, and networking.
 - Demonstrated adeptness in server management, overseeing system configurations and ensuring security protocols were upheld.
- AWS Cloud Engineer Intern (F13 Technologies)

Aug - Nov 2022

 - Deployed and configured EC2 instances to meet specific application requirements, optimizing performance and cost-efficiency.
 - Managed data storage effectively by setting up and maintaining S3 buckets for secure file storage and retrieval.
 - Contributed to the implementation and monitoring of Virtual Private Cloud (VPC) configurations, ensuring network isolation and security for AWS resources.
 - Assisted in the setup and management of Amazon RDS for relational database solutions, enhancing data scalability and availability.
 - Played a role in configuring Route 53 DNS services, contributing to reliable and low-latency domain name resolution.

 TECHNICAL SKILLS

- Practical understanding and utilization of Docker, Kubernetes, Jenkins, Git, Puppet, Chef, Ansible, and Terraform.
- Deployed applications on cloud environments, leveraging various services for scalability and reliability.
- Extensive **cloud tech proficiency** (GCP, Azure, AWS) & understanding of IaaS/PaaS/SaaS benefits.

- Knowledge of Kubernetes, DevOps methodologies, and containerization technologies
- Knowledgeable in Kubernetes, implementing DevOps methodologies for streamlined development.
- Utilized containerization technologies for efficient deployment and management of applications.
- Understanding of **AWS, Azure, and Google Cloud**. Proficiency in scripting languages (e.g., Shell Script)
- Knowledge of Github, Bit-bucket, Jira, Jenkins.
- Strong **problem-solving, communication**, and leadership abilities for effective teamwork.
- Proficient in various developer tools including Continuous Integration/Continuous Delivery systems, test tools.
- Understanding of AWS, Azure, Google Cloud. Proficiency in scripting languages.
- Strong problem-solving abilities and adeptness in customer support and issue resolution.
- Engaged actively with support, customers, and communities to address concerns and provide solutions
- Excellent problem-solving skills and the ability to prioritize and manage multiple tasks effectively.

PROJECT

1. Portfolio Deployment on AWS:

- Configured Amazon EC2 for web hosting, RDS for database management, Route 53 for DNS, and VPC for network isolation.

2. AWS Chatbot Development:

- Created a chatbot using AWS cloud services to improve user engagement and automate interactions.
- Leveraged various AWS tools to build conversational interfaces and streamline user experiences.

3. Automatic Braking System for Vehicles, Tracking System:

- Engineered a safety feature that automatically applies brakes when obstacles are detected in the vehicle's path, mitigating the risk of accidents.
- Integrated a location tracking component that sends automatic notifications to a mobile device in the event of an accident, providing precise location information for rapid response and assistance.

EDUCATION

- **Bachelor of Technology (B.Tech) | CSVTU, CG** 2019 - 2023
Bhilai Institute Of Technology, Durg. - 8.65
- **Master's In Network Administration | Jetking, Durg** 2021 - 2023
- **Shri ShankaraCharya Vidyalaya | Hudco, Bhilai**
Secondary School Certificate (SSC) - 9.4 CGPA 2017
Higher Secondary Certificate (HSC) - 82% 2019

CERTIFICATION / TRAINING

- **AWS Cloud Technical Essential**, by COURSERA
- **AWS Services for Solutions Architect Associate**, by UDEMY
- **Exam Prep: AWS Certified Solution Architect Associate**, by COURSERA
- **TCS iON Career Edge - Young Professional**, by TCS iON (ncs.gov.in)
- **Master in "MATLAB SIMULATION"**, by MATLAB

STRENGTHS & ABILITIES

- Effective Communication
- Leadership
- Team player
- Finds joy in assisting others
- Motivated and well-disciplined
- Diligence

DECLARATION

“ I hereby declare that the details and information given above are complete and true to the best of my knowledge”
