

A Mohammed Musharaff

AI/ML | GENAI | LLM | DATA SCIENTIST

PROFESSIONAL SUMMARY

AI/ML Engineer – Smart Manufacturing & Computer Vision Specialist with experience in designing and deploying **AI-powered automation solutions** for **predictive maintenance, real-time analytics, and Industry 4.0 systems**. Skilled in **Python, Flask, Power BI, YOLO, and MediaPipe**, with expertise in **computer vision pipelines, intelligent monitoring, and scalable ML models**. Adept at building **production-ready solutions** for **process optimization, automation frameworks, and analytics dashboards**. Experience spans impactful roles at **Actalent Pvt Ltd, Syscon Electro Tech, and iHelp Robotics**, contributing to **AI model development, IT solutions, and intelligent automation tools**.

WORK EXPERIENCE

Associate (AI/ML Engineer), Actalent Services | Bangalore | 08/2024 - Present

- Designed **OEE monitoring system** with **end-to-end pipeline and dashboards** for packaging machines, reducing **downtime** and enabling **real-time insights**.
- Built **scalable role-based data reporting platform** with automated **visualizations**, streamlining **workflows** for research teams.
- Integrated **LLMs** to convert **unstructured updates** into **actionable summaries**, cutting **manual reporting** by **60%**.
- Delivered **AI-driven industrial analytics** ensuring **scalability** and alignment with **client objectives**.

AI/ML Lead Engineer, iHelp Robotics | Bangalore | 08/2023 – 07/2024

- Implemented **DeepLabV3+** with **depth estimation models** for **walkable path detection** and **distance estimation**, enhancing assistive navigation accuracy.
- Built **humanized audio navigation engine** delivering **contextual real-time guidance** to visually impaired users.
- Optimized **AI pipelines** for **low-latency embedded systems**, ensuring smooth deployment on resource-constrained hardware.
- Led **cross-functional AI/ML team**, driving **research-to-application translation** for scalable assistive solutions.

AI Engineer Intern, Sycon Electro Tech | Bangalore | 01/2023 - 07/2023

- Built **scene classification pipeline** to detect **indoor/outdoor environments** and route inputs to appropriate **AI models**, improving system adaptability.
- Developed **YOLOv8-based obstacle detection** with **real-time audio feedback**, enhancing **user safety** for assistive navigation.
- Assisted in **data preprocessing, model prototyping, and core logic implementation**, ensuring functional prototypes for **vision-based pipelines**.
- Collaborated with **senior engineers** to translate research into **working AI applications**, gaining hands-on experience in **real-time deployment**.

EDUCATION

- B.E in Artificial Intelligence and Machine Learning** – Ballari Institute of Technology and Management, 2024, **CPGA – 7.5**
- PUC** – Nandi PU College, **2020**.
- SSLC** – Satyam International School, **2018**.

- GIT:
<https://github.com/amusharaff>
- Publication:
<https://doi.org/10.22214/ijraset.2024.61896>

SKILLS

- Programming:**
Python, C,
C++, Java,
SQL
- Machine Learning & AI:**
Deep Learning,
Predictive Modelling,
Real-Time Inference.
- Natural Language Processing(NLP):**
STT, TTS, Intent,
Summarization,
Sentiment,
Transformers.
- Frameworks & Libraries:**
PyTorch, TensorFlow,
Transformers,
Pandas, NumPy,
Streamlit, YOLOv8,
Flask, ReactJs.
- Tools:**
N8n, GitHub, Power
BI, VS Code, Jupyter,
Model Deployment.
