Email : nawazaadil33@gmail.com

Python developer with expertise in OOPS, SQL and web development. Experienced software engineer specializing in backend development. Skilled in Coursera for dynamic web applications.

SKILLS SUMMARY

- **Languages** : Python, SQL.
- **Frameworks** : Pandas, Numpy, Django, Agile methodology.
- **Tools** : MySQL, SQLite, Git, REST API.
- **Platforms** : Jupyter Notebook, Visual Studio Code.
- **Soft Skills** : Rapport Building, Strong Stakeholder management, Excellent Communication.

CERTIFICATIONS

- **Programming in Python** (Coursera) - Comprehensive course on Python fundamentals.
- **Django Web Framework** (Coursera) - Hands-on experience in building web applications with Django.
- **SQL Fundamentals** (LearnVern) - Foundational knowledge in SQL.

WORK EXPERIENCE (1.5 Years)

Origin Softwares, Hyderabad, India
Junior Python Developer (QT Line)

March 2023 - Aug 2024

Django Rest Framework API Development

- Developed RESTful APIs using Django Rest Framework, utilizing decorators and serializes to streamline data handling.
- Integrated MySQL databases with Django models, including schema design and efficient data retrieval.
- Customized the Django Admin Panel for improved usability and tailored functionalities.

CRUD Operations and Authentication Systems

- Created Model Forms for complete CRUD operations, including product addition, updating, deleting, and selection.
 - Developed secure authentication systems, including login and registration functionalities, ensuring data protection.
-

1. PROJECT – PYTHON

Parking Management System Using Django

- **Front-End Development:** Designed and developed key front-end pages, including registration, login, and home pages, using HTML, CSS, and Bootstrap for a responsive user experience.
 - **Back-End Integration:** Created Django models and integrated MySQL databases, ensuring efficient data management and retrieval.
 - **Admin Panel Development:** Developed and customized the Django Admin Panel for effective system management.
 - **Team Collaboration:** Assisted design team members with site maintenance and coordinated the integration of multimedia elements and links across various web pages.
 - **Regular Updates:** Updated web style sheets and pages regularly, aligning with project requirements, and prepared site update reports for submission to management.
-

2. PROJECT – SQL

Inventory Management System

- **Database Design:** Created normalized database schemas with tables for Products, Suppliers, Inventory, Sales, and Purchase Orders.
 - **Stored Procedures:** Implemented stored procedures for automated stock reordering based on predefined thresholds.
 - **Triggers:** Developed triggers to update stock levels in real-time upon sales and purchase transactions.
 - **Views:** Created views to simplify complex queries for generating monthly and quarterly inventory reports.
 - **Performance Optimization:** Optimized queries and indexes to ensure fast retrieval of data, handling large datasets efficiently.
 - **Data Security:** Applied roles and permissions to restrict access to sensitive data, ensuring compliance with company policies.
-

EDUCATION

Qualification	College	Year
Bachelor of Science (Computer Science)	Sai Degree College, Rayalaseema University.	2024
Board of Intermediate (MPC)	Sai Jr College, Rayalaseema University.	2021
Higher Secondary (S.S.C)	ST Joseph's convent High School.	2019

Declaration: I hereby declare that the information furnished above is true to the best of my knowledge. I will make it my earnest endeavor to discharge competently and carefully, the duties you may be pleased to entrust with me.
