

Technical Skills

- **Languages:** C++, Python
 - **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
 - **Database:** MySQL, MongoDB
 - **Libraries:** Streamlit, TensorFlow, OpenCV
 - **Tools, Tech, OS:** Devops,Docker, Git, Linux, MATLAB, Agile SCRUM,AWS
-

Work Experience

- **Software Developer Intern - Thriving Journey Pvt Ltd** — May '24 - Present
 - Build the startup application from scratch focusing on user management and interaction.
 - Engineered a comprehensive React application for transaction management, featuring robust AWS S3 integration for secure document handling and Single Sign-On (SSO) authentication
 - Implemented JWT , OAuth authentication and real-time status updates, enhancing both security and user experience.”
 - Designed and developed RESTful APIs with Express.js and managed MySQL databases.
 - Enhanced transaction initiation and document upload workflows, improving efficiency by 25%.
 - **Web Development Intern** — CodSoft — Aug '23- Sep '23
 - Collaborated with the development team, gaining hands-on experience in designing and coding web applications using React.js.
 - Demonstrated adaptability and problem-solving skills by meeting project deadlines.
-

Projects

- **A Framework for Multi-Criteria Risk-Based Bug Severity Classification in Software Development Life Cycle** [Github Repository](#) March 2024
 - Automated bug prioritization using machine learning and NLP techniques, achieving 90% accuracy with feature selection using Ant Colony Optimization and SVM.
 - **Sukoon - A Mental Health Website** [Github Repository](#) Sept 2023
 - Developed interactive diagnostic quizzes, engaging blogs, user journals, dynamic support groups, and a relaxation page utilizing the YouTube API.
 - Implemented a meme generator using MemeGen API and a random joke feature using JokeAPI.
 - **Medical Insurance Cost Prediction** [Github Repository](#) Aug 2023
 - Predicted medical insurance costs using input parameters with a Linear Regression Model.
 - Plotted various distribution and count graphs using Matplotlib and Seaborn.
-

Education

- **JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY, NOIDA** Oct 2021 - Aug **2025**
Bachelor of Technology in Computer Science Engineering
 - **DELHI PUBLIC SCHOOL, Ghaziabad**
Class 12 93.8%
 - **DELHI PUBLIC SCHOOL, Jalandhar**
Class 10 95.6%
-

Achievements & Position of Responsibility

- Contributed to GirlScript Summer of Code
 - Qualified and reached top percentile in Adobe Gensolve Challenge
 - Top 1k out of 57k in TVS CREDIT IT **HACKATHON**
 - Core member of the college's **open-source software** society
 - Ranked under 2000 in Leetcode contests
 - Represented the team at Hackin Summer '22 (college hackathon)
-
