SUMMARY

Over 14 years diverse experience in Data Science & Web Development working in Fintech, Rental, eCommerce, and SaaS Products. Proficient with React.js, Node.js, Python, R, and AWS services.

EXPERIENCE

HDFC Life Mumbai, MH, India

Engineering Manager (Data Science) - Retire100 team

Jan 23 - present

- Led a team of 14 developers in React.js, Flutter, built custom paint next-gen UI, deployed Web & App
- Currently leading the Data Science team; driving EDA and ETL Using Python and R scripts
- Implemented Chatbot Server, Propensity Models, solutions based on AWS Rekognition & AWS Textract
- Designed Data Architecture to support future scope and fostering data-driven decision making

NTT DATA Global (remote) Mumbai, MH, India

Systems Integration Sr. Specialist Advisor (~Data Scientist)

Jul 21 - Jan 23

- Built Asset Acquisition and Allocation Optimization for multi-billion Dollar Car Rental Company
- Big Data Model pulls data from AWS S3 via R scripts to generate constraints & send Gurobi solver
- Analyzed outputs & Investigated to fine tune the Model when optimization results are not as expected

People Interactive (shaadi.com) Mumbai, MH, India

Engineering Manager - Frontend

Nov 19 - Jul 21

- Optimized a 4 step form filled by ~10K people everyday by using Material-UI Auto-complete
- Championed for refactoring old codebase with typescript function components, react-hooks, and scss
- Built and published reusable React.js components library with visual testing via chromatic / storybook
- Analyzed technical logs, errors, & dashboards to incrementally improve business metrics

iConnect Solutions Navi Mumbai, MH, India

Tech Lead

Dec 17 - Nov 19

- Lead a team of 5 developers for a large Fortune 250 company's UK eCommerce business
- Liaison with client to fully understand their requirements and deliver features using agile methodology
- Converted monolith to a microservices backend that uses AWS SNS/SQS and Lambdas
- Created sync jobs between mongo and bigQuery databases and SAP B1 Service Layer integrations

B-OM Systems Mumbai, MH, India

Founder

Jan 15 - Dec 17

- Lead a team of 11 MEAN developers including a 4 months in-house training program in MongoDB, Angular.js, Node.js and other cloud based technologies
- Built a SaaS solution for Restaurants with Food Ordering, Billing, Inventory and Analytical Reports
- Built a SaaS solution for Professional Services Firms with Timesheet Mgmt and Assignment Allocation

PROS Inc. (NYSE:PRO) Houston, TX, USA

Pricing Scientist

Jan 10 - Dec 14

- Lead Revenue Optimization implementation for a Billion Dollar Car Rental Company, including modules of analytics, price management, forecasting, channel strategy optimization using Python
- Participated in Innovation Cell; built cloud based mid-market revenue optimization solution in 2 months focused on the Storage Rental Industry
- Implemented One-way(with Local) Optimization and Year-over-year Forecasting for a Truck Rental Company having operations across USA with over 300K trucks

EDUCATION

Georgia Institute of Technology Atlanta, GA, USA

Master of Science in Industrial Engineering

Jan 09 - Dec 09

- Manufacturing Systems
- Warehouse & Distribution Science
- Transportation & Supply Chain Systems
- Logistic Systems Engineering
- Principles of Management for Engineers
- Productivity Analysis
- Design & Analysis of Experiments
- Regression Modeling & Analysis

Master of Science in Operations Research

Aug 07 - Dec 08

- Deterministic Optimization
- Mathematical Statistics
- Probabilistic Models & Applications
- Simulation
- Computational Methods in Optimization
- Reliability Theory
- Graph Theory
- Scheduling Theory

University of Mumbai - Watumull IIECT Mumbai, India

Bachelor of Engineering in Instrumentation Engineering

Jul 02 - May 06

SKILLS

Languages: Javascript, HTML, CSS, SQL, Dart, Rust, R, Python

Client-side: React.js, redux, sagas, storybook, Flutter, Riverpod, rustwasm

Server-side: node.js, nest.js, zod, prisma, multer, pdfmake, actix

Testing: Jest, Mocha, istanbul, chromatic, cypress, puppeteer, pytest

Database: MongoDB, sqlSever, dynamo-db, bigQuery, neo4j

Statistical: R(tidyverse, data.table), Tableau, QlikView, Python(pandas, numpy)

Machine Learning: sklearn, Tensorflow, Keras, Sagemaker

NLP: Rasa, Langchain, Transformers, Bedrock

Optimizatization: CoinLp, Lpsolve, Gurobi, CPLEX, OPL, AMPL
