CARRER OBJECTIVE

Aspiring to leverage my expertise in robotic process automation (RPA) and Visual Basic (VB) programming to contribute to innovative automation projects within a dynamic organization. With a strong foundation in developing, deploying, and optimizing RPA solutions, I aim to enhance operational efficiency and drive business success. Seeking a challenging role where I can utilize my technical skills, problem-solving abilities, and passion for automation to streamline processes, reduce costs, and improve overall productivity.

PROFESSIONAL EXPERIENCE

FEB 2023 - Present

CONDUENT BUSINESS SERVICES INDIA LLP

APP DEV AND SUPPORT ENGINEER

- Developed and deployed RPA bots using Blue Prism
 - Integrated RPA solutions with existing IT systems using APIs, improving data flow and reducing manual intervention.
 - Demonstrated ability to analyze complex business processes, identify automation opportunities, and design scalable RPA solutions.
 - Skilled in troubleshooting and maintaining bots to ensure optimal performance and minimal downtime.
 - Automated repetitive tasks and processes using VBScript, increasing efficiency and reducing errors.
 - Collaborated with clients to gather and analyze process requirements for automation
 - Regularly communicated with clients to understand their needs and provide tailored solutions.
 - Worked closely with clients to develop, test, and deploy RPA bots, ensuring alignment with their business goals.
-
