Software Developer with 1.5 years of experience specializing in developing and troubleshooting software programs, focusing on C/C++ programming. Proficient in designing and debugging applications, applying strong problem-solving skills, and collaborating effectively within teams. Experienced in leveraging foundational programming principles and modern technologies to create efficient, scalable software solutions. Seeking a role to contribute technical expertise and a passion for learning to impactful engineering projects.

## Skills

**Programming** C/C++ with STL, Python, JavaScript  
**Frontend** React.js, HTML, CSS, Bootstrap  
**Backend** PHP (basic), RESTful APIs  
**Database** DBMS, MySQL

**Tools/Technologies** Git/GitHub  
**Operating Systems** Windows, Ubuntu  
**Areas of Interest** Web Development, Data Structures and Algorithms, OOP

## Experience

### Webkul Software Pvt Ltd.

Jan 2023 – May 2024

*Associate Software Engineer*

- Developed custom Magento 2 plugins for social media integration, enhancing marketing strategies and brand visibility.
- Improved SEO through Google Analytics and Search Console, increasing website traffic by 20 percent.
- Contributed to B2B and Marketplace plugins, facilitating smoother transactions.
- Assisted in creating a wallet system with a partial payment feature, increasing customer flexibility.

## Intern

### Internshala

July 2022 – Aug 2022

- During Internshala Training, we developed a functioning website prototype called "PG-Life." This also provides an overview of the following technologies: DBMS, CSS, Bootstrap, PHP, JS, and React.

### IBM

Aug 2021 – Oct 2021

- Python helped me learn about machine learning and data science. Using logical statistics and data visualization, together with a few Python packages like NumPy, Pandas, and others, it incorporates linear regression.

### CETPA

July 2020 – Aug 2020

- Gained hands-on experience in Python programming using Jupyter Notebook, IDLE, and Visual Studio.

## Education

### S.R.M.C.E.M. A.K.T.U Lucknow

2019 - 2023

*B.Tech , Information Technology*

7.4 CGPA

### G.P.S C.B.S.E

2019

*12th Sr. Secondary Examination*

61 percent

### R.P.B.M.P.S C.B.S.E

2017

*10th Secondary Examination*

8.8 CGPA

## Projects

### Document Status and Management System

- Facility to the customer for any permission or authorization of any type of documentation, connect with the authorization directly, and get the status of the updated file.
- **Role:** Develop Front-end
- **Used Tech:** ReactJS, JS, PHP, MySQL

### Hotel E-Booking

- The Hotel e-Booking system is a project implemented for different types of hotels and Pg. It provides people all over the world with an easy and fast way to book hotel rooms online.
- **Used Tech:** HTML, CSS, ReactJS, JS, PHP, MySQL

## CERTIFICATE

- Web Development Internshala
- Data Science, IBM.
- Python programming, E-ICT Academy, IIT Kanpur, India
