ABHISHEK S BIKKANNAVAR

SOFTWARE ENGINEER

PROFILE

I am a passionate and skilled frontend developer with a strong foundation in creating dynamic and responsive web applications. With a deep understanding of modern web technologies and a keen eye for design, I strive to deliver seamless user experiences that are both visually appealing and highly functional. My expertise in HTML5, CSS3, and JavaScript, combined with proficiency in frameworks like React, allows me to build scalable and maintainable codebases.

WORK EXPERIENCE

FRONTEND DEVELOPER

Marcellus infotech Private Limited Bangalore
June 2023 - August 2024

Roles And Responsibility:

- Develop and maintain responsive, user-friendly web applications using React.js.
- Build reusable components and front-end libraries for future use.
- Implement component-based architecture with effective state management using Context API.

PROJECT

BOAS Application:

- Implemented mobile responsiveness from Figma designs using TailwindCSS and NextJS.
- It is an E-Commerce website regarding clothes
- Created and developed components for various product categories.
- Built and optimized product listing pages (PLP) and product detail pages.
