SUMMARY

Results-driven Data Analyst with 2+ years of experience in data validation, cleaning, and creating actionable dashboards. Skilled in transforming complex datasets into strategic insights using Python, SQL (SQL Server, MySQL), Power BI, and Excel. Proven success in building data models, improving data quality, and automating reporting processes to enhance efficiency. Adept at aligning data insights with business objectives to optimize outcomes and drive organizational success.

TECHNICAL SKILLS

- **Programming** : Python, SPSS, JavaScript, HTML, CSS
 - **Database Management** : SQL Server, MySQL
 - **Visualization** : Power BI, Tableau
 - **Excel** : VLOOKUP, Pivot Tables, Advanced Excel
 - **Data Analysis** : Data Cleaning, Validation, Preparation, Visualization
-

PROFESSIONAL EXPERIENCE

Course 5 Intelligence

Data Analyst | Oct 2022 – Present

- Implement robust data validation processes to guarantee the accuracy and reliability of large datasets (over 3 crore rows), Reducing data discrepancies by 40%.
 - Meticulously clean and preprocess raw data by addressing missing values and outliers, to eliminate errors and inconsistencies for actionable insights.
 - Design interactive dashboards using Power BI, delivering real-time insights on market trends and sales performance, resulting in a 30% improvement in decision-making speed.
 - Streamline data table design to ensure effective organization, clarity, and accessibility, improving data retrieval time, increasing user adoption by 30%, and enhancing decision-making accuracy.
-

EDUCATION

- Bachelor of Engineering (B.E.), Priyadarshini College of Engineering, Nagpur (2018 – 2022)
 - Class XII, C.J. Patel College, Tirora (2016 – 2018)
-

PROJECTS

- Market Segmentation Analysis - Segmented the customer base using Python, SPSS and SQL, leading to a 25% improvement in campaign effectiveness by identifying key customer segments.
 - Text Data Cleaning and Gibberish Word Detection - Developed a Python program using NLP techniques to identify and remove gibberish words from open-ended customer responses, improving data quality and reducing manual cleaning efforts by 60%.
-

CERTIFICATIONS

- Data Analytics – UpGrad
- Advance SQL – Great Learning
- Advance Excel – Course 5 University
- Power Automate – Course 5 University
