About Me

Skilled in Deep Learning, Generative AI, Software Development, and Data Structures and Algorithms. Led pioneering projects utilizing PyTorch, C, C++, and Python, fostering innovation and excellence.

Education

- **B.Tech, (Electrical Engg.)**
Indian Institute of Technology, Delhi, 2011
- **M.Tech, (ICT)**
Indian Institute of Technology, Delhi, 2012
- **PGP, (AI/ML)**
University of Texas, Austin, 2025 (exp.)

Skills

- C++
- Python
- Generative AI
- LLMs
- PyTorch

Experience

Senior Computer Scientist

Adobe

Jan' 2024 – Present

- Working on training and fine-tuning of GenAI models for image and video workflows.

Software Engineer

Crossover

Nov' 2022 – Jul' 2023

- Worked on Gensym G2 – Real Time Expert System
- Finetuned GPT-neo LLM for chatbot

Staff AI Engineer

Intel

Oct' 2020 – Nov' 2022

- Worked on PyTorch bridge for Intel AI accelerator.
- Wrote optimized kernels for using PyTorch on Intel hardware
- Enabled deep learning models on Intel AI accelerator

Computer Scientist

Adobe

Jan' 2017 – Oct' 2020

- Improved performance of complex features like searching, sorting, tagging in Lightroom.
- Was involved in Generative AI research projects and mentored interns in the same.

Senior Engineer

NVIDIA

Apr' 2016 – Jan' 2017

- Was involved in development and maintenance of in-house CAD tools.

Patents

Automatic Teeth Whitening
using Teeth Region Detection
and Individual Tooth Location
US20200342586

Awards & Honours

- Adobe Special Contribution Award – Dec'19
- Adobe Special Contribution Award – May'19
- Adobe Spot Award – May'18
- Adobe Photography Hackathon 2020 Winner under Deep Research Value category

Publications

- Rust Crash Course, BPB publications
- Data Analytics using Java, AVA publications
- Integrating Rust, BPB publications

Software Engineer

ARM

Feb' 2015 – Mar' 2016

- Design and development of Design Tools for Memory Compilers, using C/C++, and Java.
-

Senior Software Engineer

Samsung

May' 2014 – Feb' 2015

- Involved in the web and native development for Club Samsung application on Samsung's Tizen mobile platform.
-

Software Engineer

ARI Simulation

Jun' 2012 – May' 2014

- Was involved in Research and Development of 3D simulation technologies.
 - Worked on missile simulator, integrating Kinect in 3D engine room simulator, Autodesk Max plug-in development, 3D animation programming using DirectX, to name a few.
-
