

Adithyan B

SECURITY ANALYST

BANGALORE | 790-722-2956 | adhithyanadhibaiju@gmail.com | [linkedin.com/in/adithyan-b-794b27165](https://www.linkedin.com/in/adithyan-b-794b27165)

Professional Summary

Results-driven Security Analyst with nearly 3 years of experience specializing in managing and optimizing cutting-edge security technologies such as EDR systems, XDR solutions, Proxy servers, Email Gateways, and Firewalls. Proven expertise in implementing and reviewing security policies, leading ransomware recovery efforts, and performing virtual patching. Focused on ensuring compliance with industry standards and providing strategic recommendations to enhance organizational security posture.

Professional Experience

DxC Technology, Bangalore

Analyst II Information Security, 2023 – Present

- Managed and monitored various security solutions, including Trend Micro Cloud One, Apex Central, Vision One, Forcepoint Proxy, Cisco Email Gateway, Palo Alto, Checkpoint Firewalls, and Fortigate VPN tools. Ensured seamless integration and optimal performance to protect the organization against cyber threats.
- Played a key role in ransomware recovery by restoring a client's infrastructure post-attack. Collaborated with the incident response team to identify the attack vector, contain the malware, and facilitate the recovery process, minimizing downtime and safeguarding sensitive data.
- Led the review and optimization of security policies and rules across multiple solutions (EDR, XDR, Proxy, Email Gateway, Firewall), ensuring alignment with industry standards and best practices.
- Managed VPN access, ensuring secure remote connectivity and data confidentiality.
- Spearheaded the implementation of virtual patching using Trend DeepSecurity, effectively shielding critical systems from potential exploits and vulnerabilities.
- Administered Palo Alto and Checkpoint firewalls, actively monitoring and fine-tuning rules to strengthen the network perimeter against unauthorized access and potential threats.
- Collaborated with the different vendors and OEM product implementation team to deploy and configure security solutions, enhancing the organization's defences against evolving cyber threats.
- Successfully reduced incident response time by 20% through proactive monitoring and swift action.

Fidelis Technology, Bangalore

Security Engineer, 2021 – 2023

- Managed security technologies, including antivirus, proxy, email gateway EDR systems, and intrusion detection/prevention systems.
- Implemented, deployed, and configured Apex One, Apex Central, Deep Security, and Forcepoint Proxy Manager consoles and agents with operational and administrative expertise.
- Migrated proxy wcg from legacy os based wcg to appliance based wcg

- Oversaw email gateway monitoring, analysis, and clearance processes, ensuring compliance with standards and client requirements.
- Monitored and regulated the organization's proxy server to control site access, ensuring adherence to policies and industry standards.
- Implemented security solutions and reviewed security policies to ensure comprehensive protection against threats. Provided advice to enhance security for customers and end-users.
- Identified potential threats, product issues, and configuration errors.
- Strengthened enterprise infrastructure and data security through the implementation of security controls, SLA procedures, and incident/change management.
- Proactively informed end clients about preventive measures, ensured optimal security technology functioning, and detected events for timely correction.
- Collaborated with vendors for product updates, issue resolution, and effective relationship management.

Education

- **MSc Cyber Forensic**, Mahatma Gandhi University, Kerala, 2020 – 2022
- **BSc Cyber Forensic**, Mahatma Gandhi University, Kerala, 2016 – 2019

Certifications

- CompTIA Security+ CE
- Microsoft SC 900 - Security Compliance and Identity Fundamentals
- MITRE: Understanding the Basics, Trend Micro
- Implementing the NIST Risk Management Framework
- Deep Security 20 Technical Essentials, Trend Micro
- Apex One Technical Essentials, Trend Micro
- Apex Central for Administrator, Trend Micro
- Vision One for Administrators, Trend Micro
- Cortex XDR Overview & Threat Hunting
- Cloud One - Workload Security Technical Essentials, Trend Micro

Technical Skills

Information Security, Endpoint Security, Security Analysis, Incident Response & Management, Network Security, Web & Email Security, Vulnerability Assessment, IDS/IPS, Cloud Security, Cyber Threat Intelligence, Security Incident Management

Soft Skills

Collaboration, Teamwork, Problem-Solving, Communication, Analytical Thinking, Leadership, Time Management

Achievements

- **H2 FY24 Collaborators Award**, DXC Technology: Recognized for exceptional teamwork and collaboration in achieving project goals.
- **Q2 FY24 Champs Award**, DXC Technology: Honored for outstanding performance and contribution to the organization's security objectives.
