

ADNAN ALAM

DATA ANALYST

+91 8360489517 | adnanalam8360@gmail.com | Bengaluru

PERSONAL SUMMARY

Aspiring Data Analyst with a strong foundation in **statistical analysis** and **data visualization**. Proficient in **Python**, **SQL**, and **Excel**. Completed several projects involving **data cleaning**, **analysis**, and **reporting**. Quick to adapt to new tools and effective in collaborating with cross-functional teams to support data-driven decision-making. Seeking an entry-level data analyst position to apply analytical skills and drive impactful insights.

WORK EXPERIENCE

Wordpress Intregator

vSplash Techlabs Private Limited

March 2024 - July 2024

- Worked closely with teams to integrate analytics tools, track web performance, and enhance user experience.
- Partnered with stakeholders to understand business goals, provided data-driven recommendations, and implemented improvements to create a more engaging and user-friendly interface.
- Skilled in customizing themes, plugins, and APIs to ensure smooth integration, improve user experience, and streamline operations.
- Collaborated closely with clients to understand their business goals, providing recommendations and implementing UI/UX improvements for a more engaging and user-friendly website.

Web Developer

Creatisoul.Ilp

February 2022 - December 2023

- Tracked and analyzed user behavior on the website using Google Analytics to uncover key metrics and insights.
 - Created custom dashboards in Power BI aligned with business objectives, supporting data-driven decisions.
 - Shared actionable insights with stakeholders to improve website performance and boost user engagement.
 - Successfully managed data projects, addressing post-launch challenges and implementing improvements under tight timelines.
 - Led the successful delivery of client applications as a web developer, effectively handling post-production issues and improvements within strict deadlines. .
-

PROJECTS

Music Store

- Developed a SQL-based solution to analyze sales performance across multiple regions and create automated reports.
- Designed and normalized the database schema, wrote complex queries to extract insights, and optimized data retrieval through indexing. Automated monthly reports using SQL scripts.
- **Technologies Used:** MySQL, Power BI, Excel

Zomato Analytics

- Developed a data analysis project for Zomato using Python libraries.
- Analyzed and cleaned raw data to identify trends and insights using Pandas for data manipulation.
- Created visualizations with Matplotlib and Seaborn to showcase customer preferences, order trends, and restaurant performance.
- Utilized Numpy for efficient numerical computations and data transformations.
- Delivered key insights that helped understand the correlation between customer ratings, votes, and restaurant types.
- **Technologies Used:** Numpy, Pandas, Matplotlib, Seaborn.

Pizza Store Sales Analysis and Reporting

- Developed a comprehensive reporting system to track and analyze pizza store sales performance across multiple channels.
- Utilized SQL for data extraction, transformation, and loading (ETL) from various sales databases.
- Built interactive Power BI dashboards to visualize key sales metrics, including daily revenue, average order value, and customer retention rates.
- **Technologies Used:** MySQL, Power BI, DAX, Power Query

EDUCATION SUMMARY

Lovely Professional University

Bachelor of Technology-
Computer Science & Engineering

SAS Inter College

Higher Secondary Education-
Science

CERTIFICATIONS

Google Data Analytics Professional Certificate

30 SEP 2024

Google, Coursera

Completed an 8-course professional certificate covering data analysis, visualization, SQL, R, and Tableau.

Certificate Of Accomplishment SQL(Intermediate, Advance)

16 SEP 2024

HackerRank

Achieved proficiency in SQL as demonstrated through hands-on coding challenges.

SKILLS

- **Programming Languages:** Python, R, SQL
- **Data Visualization:** Tableau, Power BI, Matplotlib, Seaborn
- **Statistical Analysis:** Regression, Hypothesis Testing, ANOVA
- **Data Manipulation:** Pandas, NumPy
- **Database Management:** MySQL,
- **Other Tools:** Excel, Google Sheets, Jupyter Notebook
