Professional Experience

Back End Developer

07/2024 – present

Appziac Technologies

Calicut, Kerala

- Developed scalable web applications using PHP and Laravel, improving performance and user engagement by **20%**.
- Optimized database models and queries with Eloquent ORM and MySQL, enhancing data flow efficiency by **25%**.
- Designed responsive user interfaces with Blade templates and Tailwind CSS, increasing user retention by **30%**.
- Implemented server-side logic using Laravel's MVC architecture, reducing server response times by **40%**.
- Conducted code reviews and utilized Laravel's testing tools, boosting team productivity by **15%** and reducing production bugs by **50%**.

Internship

12/2023 – 03/2024

MaiTexa Info Solutions

Calicut, Kerala

- Developed a weather prediction tool using Python and APIs for real-time data collection, enabling accurate forecasts and trend analysis.
- Applied advanced machine learning algorithms to predict weather patterns, achieving **85%** accuracy.
- Ensured ethical data usage by adhering to privacy guidelines and minimizing bias in model predictions.

Projects

Online Cart

E-commerce Shopping Store

Technologies Used

- Frontend: Blade templates, Laravel Livewire, Tailwind CSS
- Backend: Laravel Framework, MySQL, Stripe/Razorpay

User Side:

- **Secure Authentication:** Enhanced user registration and login with Laravel's authentication system, improving data privacy and reducing login issues by **20%**.
- **Advanced Search & Filter:** Implemented efficient search and filter functionality using Laravel's query builder, boosting product findability by **50%** and increasing user satisfaction by **15%**.
- **Shopping Cart System:** Designed a dynamic cart feature to simplify item management and streamline the checkout process, reducing cart abandonment rates by **25%**.
- **Profile Management:** Enabled users to manage personal information, view order history, and track orders, driving a **30%** increase in repeat purchases.

Admin Side:

- **Secure Admin Login:** Strengthened admin login with middleware authentication, reducing unauthorized access attempts by **50%**.
- **Product Management:** Optimized product catalog management with CRUD operations and image uploads, decreasing update time by **40%**.

- **Comprehensive Dashboard:** Built an analytics dashboard using Laravel Charts, providing actionable insights and contributing to a **20%** increase in sales.

Key Achievements:

- **State Management:** Utilized Laravel Livewire for real-time interactions, reducing page load times by **30%**.
- **Responsive UI Designs:** Created responsive interfaces with Tailwind CSS, boosting user engagement metrics by **25%** through improved navigation and visual appeal.

 Skills

LANGUAGES & FRAMEWORK

- PHP
- HTML
- CSS
- SQL
- Laravel
- JavaScript

Tools & Technologies

- GitLab
- Composer
- Bootstrap
- Tailwind CSS
- Middleware
- Blade Templates
- Eloquent ORM
- Laravel Livewire
- Laravel Framework

Soft Skills

- Team Collaboration
- Project Coordination
- Communication
- Leadership

 Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

06/2021 – 04/2024

Safi Institute Advanced Study

Malappuram, India

- Developed expertise in software development, algorithms, and database management.
- Built a strong foundation in data structures, computer networks, and operating systems, demonstrating proficiency in core computer science principles.
- Advanced skills in data analysis, machine learning, and digital tools, applying them effectively in IT environments.
- Led and collaborated on academic projects, including web development, data visualization, and software engineering, highlighting teamwork and innovative problem-solving.
