

AKASH CHOUTPALLY

GCP DATA ENGINEER

✉ akash.choutpally@gmail.com

☎ +91 8074956967

📍 Hyderabad, India

EDUCATION

MAHATMA GANDHI KASHI
VIDYAPITH

JUL 2011 - MAY 2014
B.Com - COMPUTER APPLICATIONS

TECHNICAL SKILLS

ETL TOOLS

Cloud Functions, Pub/Sub,
Composer, BigQuery, Dataproc,
Databricks

PROGRAMMING

LANGUAGES

Python, Shell Scripting (Unix/Linux),
SQL

DATABASES

BigQuery, MySQL

BIG DATA FRAMEWORKS

Apache Spark (PySpark, Dataproc,
Databricks)

DASHBOARDING TOOLS

Looker Studio, Tableau, Power BI

SCHEDULING &

MONITORING

Apache Airflow, Cloud Composer

CONTROL SYSTEMS & DOCUMENTATIONS

Git, Confluence, JIRA, Agile
Methodologies

DATA FORMATS

CSV, JSON, AVRO, PARQUET

PROFILE SUMMARY

GCP Data Engineer with 6+ years of professional experience (4+ years as a Data Engineer) across healthcare and e-commerce domains. Specialized in building scalable, cloud-native data platforms and pipelines using BigQuery, PySpark, Dataproc, and Airflow. Proven ability to optimize data processes and drive automation, enabling real-time decision-making.

WORK EXPERIENCE

Data Engineer

Avya IT Pvt Ltd | Feb 2023 – Present

Client: AB InBev

- Contributed 60% to optimizing data pipelines and 40% to implementing **PySpark** solutions for enhanced supply chain management.
- Designed and implemented scalable data pipelines using **PySpark** on **Dataproc** and **Databricks**, ingesting data into **GCS** and **BigQuery** in formats like **AVRO** and **PARQUET**.
- Automated ETL workflows with **Apache Airflow** and **Cloud Composer**, ensuring data consistency and security.
- Collaborated with data scientists using **Databricks notebooks** to improve machine learning readiness by enhancing data quality and accessibility.

Data Engineer

Techfruit Technologies Pvt Ltd | Oct 2020 – Jan 2023

Client: Noon.com

- Led 70% of data migration efforts and 30% of performance optimization to build a robust data platform for e-commerce analytics.
- Developed real-time data pipelines using **PySpark** and **Databricks** to enhance querying and reporting efficiency in **BigQuery**.
- Automated ETL processes with **Cloud Composer** and **Airflow**, leading to faster reporting and decision-making.
- Used **Databricks** for collaborative data modeling and transformation, resolving data quality issues and creating analytics dashboards.

Data Analyst

Sep 2018 – Aug 2020

- Created complex **SQL queries** and dashboards using **Power BI**, providing actionable insights for optimizing business performance.

Quality Analyst

Google/Wipro | Apr 2017 – Sep 2018

- Audited vendor performance on Google My Business, providing feedback and training to improve compliance and quality.

Sr. Assistant

Apollo Tele Health Services | Oct 2015 – Jan 2017

- Managed customer orders and resolved queries, ensuring a high level of customer satisfaction and timely issue resolution.
