Professional Summary

Results-oriented Product Lead with extensive experience in managing cross-functional teams and delivering complex projects across insurance, finance, and government sectors. Skilled in developing secure backend systems in Laravel, integrating third-party APIs and payment gateways, and overseeing end-to-end project lifecycles. Strong in client management, production server handling, and fostering a collaborative environment to drive innovation and success.

Skills

- Php
- Mysql
- JQuery
- Rest Api
- Laravel
- Cakephp
- Ajax

Education

Bachelor of Engineering

(Computer Science)
Chandigarh University Mohali Punjab,
Aug 2017 to Apr 2021

Work Experience

Evervent Pvt Ltd. Mohali , Punjab
August 2021 - Present

Role and Responsibilities

- Led a team of multiple junior developers, providing guidance, mentorship, and performance management to ensure project goals and timelines were met.
- Supervised and reviewed the work of junior developers to maintain code quality, enforce best practices, and foster a collaborative team environment.
- Handled production server management, ensuring optimal performance, security, and uptime.

Projects

- **JIO Insurance Portal:** Led the health insurance product for this PHP and React-based portal. Developed all backend APIs in Laravel with full security standards and contributed to the front-end development using React.
- **Muthoot Finance Portal:** Managed the health insurance product for this insurance-based portal.
- **AG Dialer (Comptroller and Auditor General of India) :** Worked independently on this government project structured as an admin panel where all data was displayed on graphs. Utilized CakePHP, jQuery, and AJAX for development, with MySQL for the database.
- **ChatBoat (Open AI):** Executed this project individually, integrating the ChatGPT API. Utilized Laravel for backend development and jQuery and AJAX for front-end operations.
- **Third-Party API Integrations:** Integrated various third-party APIs for insurance quotations, including HDFC, Aditya Birla, Reliance, and Niva Bupa.
- **Payment Gateway Integrations:** Implemented multiple payment gateways, such as Stripe, Juspay, and Razorpay, to facilitate secure and efficient payment processing.
