INNOVATIVE TECHNOLOGY- CHENNAI.

Data Analyst

I completed an internship as a Data Analyst at Innovate Technologies, where I conducted data analysis to extract actionable insights, streamline processes, and support business decision-making. During my tenure, I utilized various tools and techniques for data visualization, reporting, and predictive analytics. I also collaborated with cross-functional teams to ensure data integrity and effectively communicate analytical results.

Project - powerBi Dashboard

Title - Top_30_Compnies in India

I designed and implemented an advanced Power BI dashboard to analyze the top 30 companies in India. This project encompassed the entire data lifecycle, including data collection, preprocessing, and visualization. The dashboard provided a detailed overview of key performance indicators, industry insights, and financial metrics through dynamic and interactive visualizations. By employing advanced Power BI features, I ensured that the dashboard was both user-friendly and effective in supporting data-driven decision-making. This project demonstrates my proficiency in data analytics and my ability to transform complex datasets into meaningful insights.
