- S.N.S. College Jehanabad, BSEB** May 2015
Intermediate – Science
Jehanabad, India
 - Percentage: 67%
- G.P.V.K Sikariya Jehanabad, BSEB** June 2013
Matriculation
Jehanabad, India
 - Percentage: 59.8%

WORK EXPERIENCE

- Magenoto Software**  May 2023 - Aug 2024
Software Developer
Patna, India
 - Led the development of scalable web applications, focusing on enhancing performance and user experience.
 - Collaborated with cross-functional teams to design and implement new features, reducing the time-to-market for key product updates.
 - Optimized existing codebase, resulting in a 30% increase in application speed and efficiency.
 - Played a key role in the migration of legacy systems to modern architectures, ensuring smooth transitions and minimal downtime.
- Tek-Hummingbird**  December 2022 - April 2023
Software Engineer
Bengaluru, India
 - Developed the Hummingbird Internal Tool, creating a robust management system with modules for project oversight, HR functions, and user role management.
 - Engineered a role-based access control framework, significantly improving security and streamlining the administration of employee records, leave requests, and daily updates.
 - Designed and implemented user-friendly interfaces, ensuring seamless accessibility and enhancing overall user satisfaction.
 - Conducted data analysis to produce detailed reports, leading to a 25% increase in process efficiency and better-informed decision-making.

SKILLS

- Programming Languages:** PHP, Java
- Web Technologies:** Laravel
- Web Technologies:** HTML, CSS, JavaScript
- Database Systems:** SQL, MySQL
- Platforms:** Visual Studio Code, IntelliJ IDEA, Notepad++, Eclipse
- Soft Skills:** Teamwork, Time Management, Problem-Solving

PROJECTS

- **Multi-Vendor Grocery Website**

May 2024 - Present

Tools: PHP, MySQL, HTML, CSS, JavaScript

- Developed a multi-vendor grocery website, enabling multiple vendors to list and manage their products efficiently.
- Integrated essential features such as product management, payment gateways, and user authentication to facilitate a smooth shopping experience.
- Implemented an intuitive admin panel for managing vendor accounts and product listings, improving administrative efficiency.
- Optimized the website's performance and scalability, achieving a 25% increase in site speed and reducing bounce rates.

- **Bottomtech Solution - Main Website**

Jun 2024 - Jul 2024

Tools: PHP, MySQL, HTML, CSS, JavaScript

- Designed and developed the main website for Bottomtech Solution Private Limited, focusing on performance, scalability, and user experience.
- Integrated features such as vendor management, user-friendly navigation, and optimized backend services to enhance overall functionality.
- Implemented responsive design to ensure seamless access across all devices and screen sizes.
- Enhanced website performance, resulting in a 30% improvement in loading times and user engagement.

- **VCard - Business Card**

Oct 2023 - Jan 2024

Tools: PHP, Laravel, MySQL, HTML, CSS, JavaScript

- Developed a platform that allows users to create personalized business cards, providing a unique online presence with customizable features.
- Implemented an intuitive interface with drag-and-drop functionality, making it easy for users to design their business cards without technical knowledge.
- Integrated a responsive design, ensuring the platform is accessible and user-friendly across all devices.
- Utilized data analysis to track user engagement and optimize features, resulting in a 20% increase in user retention.

- **Hummingbird Internal Tool: Comprehensive Internal Management System**

December 2022 - Apr 2023

Tools: PHP, MySQL, HTML, CSS, JavaScript

- Designed and developed various categories, including project management, HR management, manager roles, and user management, to streamline internal processes.
- Implemented a role-based access control system, ensuring secure and efficient management of employee records, leave tracking, and daily work status updates.
- Created responsive interfaces for different user roles, enhancing usability across devices.
- Applied data analysis techniques to generate insightful reports for management, improving decision-making processes by 25%.

CERTIFICATIONS

- **Full Stack Java Development**

Jan 2022 - Nov 2022

- **Certifying Body:** [Cranes Varsity - a Training Division of Cranes Software International Ltd.](#)
