SUMMARY

Full-stack software developer with expertise in front-end and back-end development, Experienced in leading cross-functional teams.

SKILLS

Frontend: HTML, CSS, Javascript, React.js, Redux, Next.js, Typescript,

Backend: Node.js, Express.js, Typescript

DevOps: Docker, Kubernetes, CI/CD, AWS

Database: MySQL, MongoDB, PostgreSQL

Others: Java, data structure, algorithm, low-level designing, problem-solving, and team management.

EXPERIENCE

React.js Developer

Dec 2022 - May 2024

Skylark Infotech

Delhi, India

- Developed and deployed a responsive design enhancing user engagement by 30%.
- Designed and enhanced reusable components and front-end libraries, cutting down development time by 20%
- Implemented advanced performance optimization techniques, reducing page load times by 40% and increasing user engagement by 25%.
- Collaborated with cross-functional teams to ensure seamless integration and functionality of web applications.
- Demonstrated strong problem-solving skills by identifying and resolving technical issues promptly.

PROJECTS

Task Manager ([Link](#))

- Created and deployed a full-stack task management application using the MERN stack, enhancing team productivity with task assignment, tracking, and collaboration features.
- Implemented secure user authentication and role-based access control, ensuring data protection and streamlined user management for administrators and regular users.
- Utilized React, Redux Toolkit, and Tailwind CSS to create a responsive and intuitive user interface while leveraging Node.js and MongoDB for robust backend functionality and scalable data storage

Codeforces Clone ([Link](#))

- A competitive programming platform inspired by Codeforces, offering a comprehensive environment for users to enhance their coding skills.
- Created a cross-platform user interface that improved accessibility and responsiveness for all devices.
- Implemented TypeScript for static type checking, enhancing code reliability and contributing to a 30% decrease in runtime errors during development phases across the competitive programming platform project.

Wallet App ([Link](#))

- Full-stack wallet application using React, TypeScript, Node.js, and MongoDB, with secure and efficient payment management.
- Integrated a user-friendly GUI for effortless interaction, enabling gesture customization and transaction storage
- Crafted a user-friendly interface with intuitive navigation and transaction history visualization.
- Ensured efficient deployment and scalability, optimizing resource utilization for enhanced user experience

EDUCATION

Bachelor of Technology

2018-2022

Dr. A.P.J Abdul Kalam Technical University

Lucknow, U.P

CGPA - 8.3

Senior Secondary (12th)

2016-2018

Kalind Intermediate College

Deoria, U.P

Percentage-78%

Secondary (10th)

2014-2016

Kalind Intermediate College

Deoria, U.P

Percentage-86%

CERTIFICATIONS

- 0-100 Full-Stack Web Development Course[100xDevs] ([Link](#))
