Summary

A highly motivated and detail-oriented developer with 2 years of hands-on experience in **Robotic Process Automation (RPA)** using the **RE Framework** and **Magnolia CMS**. Adept at designing, developing, and deploying automated workflows to streamline business processes and enhance operational efficiency. Experienced in customizing and extending **Magnolia CMS** to deliver tailored web solutions, optimize content management, and integrate with various backend systems. Experienced in using **UiPath** with the **RE Framework** for building scalable, reusable automation solutions that adhere to best practices and in building custom modules, templates, and components in **Magnolia CMS**. Demonstrates strong problem-solving abilities, cross-functional collaboration, and the ability to manage projects from conceptualization to deployment.

Skills

- **Programming languages:** Java, JavaScript ,SQL
- **Frameworks** : RE Framework
- **Web technologies:** HTML, CSS, JSON
- **Version control:** Familiarity with Git for code management, GitLab
- **RPA Tools:** UiPath Studio, UiPath Orchestrator, UiPath Robots
- **File Automation:** Excel, PDF, CSV processing
- **Integration:** APIs, RESTful services, third-party tool integration
- **CMS Platforms:** Magnolia CMS, Wordpress

Work Experience

Tata Consultancy Services | Bengaluru | Sept 2022 — Present

PROJECT: NEST (BANCS)

RPA DEVELOPER

- Designed and developed automation workflows using **UiPath Studio**, optimizing processes like data extraction, PDF invoice processing, and Excel report generation.
- Published bots to **UiPath Orchestrator** for scheduling, monitoring, and managing job queues.
- **Excel Automation:** Use UiPath's Excel activities (e.g., Read Range, Write Range, Sort, Filter, Pivot Table, VLOOKUP) to automate data operations.
- **PDF Automation:** Use PDF activities (e.g., Read PDF Text, Read PDF with OCR, Extract PDF Data) to automate data extraction.
- Provide post-deployment support for Excel- and PDF-related automations to address changes in formats or workflows.
- Developed bots for extracting data from invoices and updating Origo records with minimal human intervention.
- Implemented a reporting automation workflow, generating daily and monthly reports directly from Origo

MAGNOLIA DEVELOPER

- Designed and developed custom templates, components, and dialogs in Magnolia CMS to meet client-specific content management needs.
- Built and maintained custom modules for integration with third-party tools and APIs, ensuring seamless data synchronization.
- Managed version control and deployment processes using **Git** and **CI/CD pipelines** to ensure smooth releases.
- Collaborated with content authors and marketing teams to implement user-friendly content workflows and personalized content delivery.
- Optimized website performance by implementing caching strategies and fine-tuning Magnolia CMS configurations.
- Implement custom dialogs and content apps for content authors and editors.

Education

Bachelor of Technology (B Tech)- APJ Abdul Kalam Technological University

Computer Science & Engineering | Kollam, Kerala, India

CGPA-8.34

Higher Secondary Education – Indian Public School

Kollam, Kerala, India

Percentile-80

High School Education- Indian Public School

Kollam, Kerala, India

CGPA-10

Certifications

- Oracle Database SQL Certified Associate
