Experience

ZuAI - AI Study Buddy

September 2024 – Present

Full-Stack Engineer

Remote / Bengaluru

- Engineered and maintained key features of the ZuAI web app utilizing cutting-edge technologies, including Next.js, React.js, TypeScript, ShadCN/UI, Framer Motion, and advanced AI tools, ensuring an engaging user experience.
- Designed and implemented a real-time, type-as-you-go SearchBar for instant result fetching, an interactive Sidebar, and an immersive, visually appealing frontend for the ZuAI web app. Enhanced user experience and significantly increased user engagement time through AI-powered Study Buddy Bots.
- Increased user signup-to-activation ratio by 40%, driving higher user retention and engagement through targeted feature enhancements and optimized user onboarding workflows. Developed interactive AI chat bots using websockets.

VR AR MR

December 2023 – February 2024

Software Development Engineer

New Delhi, Delhi

- Created a responsive frontend for Campus 3D Shoes with React.js, integrating 3D models into the webpage. Refactored the codebase, optimized website performance by 30%, and enhanced SEO by adhering to improved web standards.
- Developed a full-stack web application for a Kaiser Permanente event, allowing users to take selfies via the frontend, display the captured image in real-time, and receive it via email. Implemented backend functionalities with Node.js, Express.js, WebSockets, and Nodemailer, including real-time image processing and email notifications.
- Resolved complex project bugs and collaborated with team members on various projects to implement scalable solutions to client requirements. Independently authored detailed project documentation, enhancing overall project quality.

Education

Gaya College of Engineering (Aryabhata Knowledge University)

August 2018 – October 2022

Bachelor of Technology in Computer Science and Engineering

Gaya, Bihar

Projects

ZuAI - 24/7 Study Buddy | *Next.js, React.js, Typescript, Shadcn/UI, Gemini AI, Zustand, IndexedDB* August 2024

- Developed an Gemini AI powered Web App for evaluating International Baccalaureate (IB) coursework.
- Features -: File Drag-and-Drop, File Compression and efficient storage using IndexedDB, File Metadata extraction.
- Processed file content via Gemini AI API and showcased evaluation outcomes and grading scores with radial charts.
- Ensured Data persistence across page reloads and optimized the User Experience using subtle micro-interactions.
- Deployed the application live on vercel [ZuAI - Live](#). View source code: [ZuAI - GitHub](#).

Airbnb | *EJS, Node.js, Express.js, HTML, CSS, JavaScript, MongoDB, Firebase, JWT*

September 2023

- Developed a pixel-perfect Airbnb Clone using EJS for frontend, Express for backend and MongoDB as the database.
- Features -: Completely Responsive, Persistent User Login, Efficient file storage using Google Firestore Firebase.
- Implemented OTP-based Email verification and robust user authentication using JSON Web Tokens and cookies.
- Established robust user authentication using JSON Web Tokens (JWT) and cookies for session management.
- Deployed the project on Render, making it accessible for users. [Airbnb - Live](#). View source code: [Airbnb - GitHub](#).

Quizee - Quiz Your Way | *HTML, CSS, Javascript*

June 2023

- An timer-based online Quiz Application with theme toggle option. [Quizee - Live](#). View source code: [Quizee - GitHub](#).

Technical Skills

Languages : C/C++, Java, Python, HTML, CSS, JavaScript, Typescript, SQL

Libraries/Frameworks : Next.js, React.js, Node.js, Express.js, Shadcn/UI, Tailwind, Web Sockets, React Redux, Zustand

Developer Tools : Git, GitHub, VS Code

Achievements / Extra Co-curricular Activities

- Rated 3* (max Rating 4*) Competitive Programmer on [CodeChef](#)
- Solved 3000+ DSA Questions on multiple Coding Websites to enhance Logical reasoning and Problem Solving skills.
- 800+ on [Leetcode](#), 800+ on [CodeChef](#), 600+ on [GeeksForGeeks](#), 600+ on [CodingNinjas](#), 750+ on [Codeforces](#).
- 3rd Rank in Problem Solving on [GeeksForGeeks](#) among 360+ registered Programmers within College
