Career Objective

A Seasoned DevOps Engineer adept in containers, cloud services, and version control systems. Skilled at streamlining workflows, reducing downtime, and enhancing project agility. Proven problem solver with a track record of resolving complex.

Education

Bachelor of Engineering,
Technocrats Institute of Technology
2016 – 2020
Bhopal, Madhya Pradesh, India

Skills

Operating System
Windows & Linux

Cloud Service
AWS & Azure

IaC
Terraform

VCS
Git & GitHub

Others
Incident Management, IT
Operations, Docker & Yaml

Professional Experience

Azure DevOps Engineer, LTIMindtree Ltd

February 2021 – Present | Pune, Maharashtra, India

- Managing and monitoring the pipelines for Microsoft PowerBI and its premium project MWC.
- Collaborated with cross-functional teams to streamline pipeline workflows, resulting in a 30% increase in the number of deployments per week.
- Conducted broad investigation of the failures, identifying root causes and implementing troubleshooting measures that reduced downtime by 40% and improved system reliability.
- Providing solutions to the PowerBI development team on pipeline failures, conducting debugging of the issues, and optimizing deployment processes, resulting in a 20% reduction in deployment time.
- Managed the deployment of infrastructure updates across multiple environments, resulting in higher improvement in deployment efficiency.
- Implemented proactive monitoring procedures, resulting in a 15% increase in SLA adherence and a reduction of critical incidents by 30%.
- Utilized Git and YAML files to configure Azure DevOps workloads, optimizing pipeline flows for project teams.
- Implemented Azure infrastructure via Terraform scripts, reducing deployment time by 30% and boosting system reliability by 20%.

Certificates

Microsoft Certified Azure Fundamentals(Az 900)
Completed

AWS Solution Architect Associate & Terraform Associate
