ABOUT ME

As a seasoned .NET Developer, I bring a **3-year** track record of hands-on experience in the field of software development and implementation. My expertise lies in crafting robust client/server applications, leveraging the full suite of **.NET technology** to deliver solutions that meet and exceed expectations.

WORK EXPERIENCE

BRILLIO

Bangalore
Jul 2021 - Jul 2024

Software Development Engineer

- Project Name: Ceridian HCM. Inc.: RPA and Workflow Orchestration.**
Technologies Used : Microsoft Azure

 - Designed tax filing workflows for Ceridian HCM using Azure Logic Apps.
- Project Name: Sage Network Connector**
Technologies Used : C#, .NET, Microsoft SQL Server

 - Developed data sync for APIs, stored results in Azure Blob and updated database.
 - Conducted manual tests & data creation in Business Central for API functionality.
- Project Name: Verizon Migration**
Technologies Used : ProC, Microsoft SQL Server, UNIX

 - Performed analysis and reverse engineering in C, ensuring accurate call parameter logic.
 - Utilized SQL Developer and UNIX command line tools to validate data insertion and log analysis, achieving data integrity across SQL and Cassandra databases

INTERNSHIP

MATAYO-AI
SOLUTIONS

Bangalore
Dec 2020 - Mar 2021

Application Developer

- Developed JavaScript functions to enhance user interactivity and streamline client-side operations, such as form validation and dynamic content loading.
- Implemented webmethod calls in JavaScript to efficiently communicate with server-side APIs, enabling seamless data retrieval and updates without page reloads.
- Used C# to establish secure and efficient connections with databases.
