WORK EXPERIENCE

GEP Worldwide

Mumbai, Maharashtra

Process Associate

Mar 2022 - Nov 2022

- Assisting in the creation, review, and management of supplier contracts, ensuring compliance and cost-effectiveness.
- Implemented data processing solutions that streamlined operations, leading to a 15% improvement in processing time for procurement tasks.
- Monitored supply chain operations, identifying trends and areas for improvement in inventory and demand forecasting.

PROJECT EXPERIENCE

Boston Consulting Group (BCG_X)

Developed AI Chatbot for Financials

Aug 2024 - Sep 2024

- Created and implemented functions to extract key financial metrics for major companies, achieving a 95% accuracy rate in financial insights.
- Conducted comprehensive testing of the chatbot's functionality, ensuring a 90% success rate in query handling and response accuracy.
- Developed innovative solutions for handling both standard and creative queries, contributing to the chatbot's effective performance.

TATA

Developed Interactive Dashboards

Apr 2024 - Sep 2024

- Analyzed geographical sales data to identify high-revenue countries with low quantities sold, leading to a 10% increase in sales through targeted strategies.
- Designed and implemented customer retention initiatives for top 10 clients, resulting in a 20% boost in repeat purchases and overall revenue.
- Developed interactive dashboards using Tableau and analyzed large datasets with Python and SQL to provide actionable insights from large datasets to drive strategic business decisions.

Accenture

Crafted Data-Driven Insights

Apr 2024 - Sep 2024

- Performed comprehensive data cleaning and preparation tasks, achieving 99% data accuracy for client analysis.
- Utilized Excel and Tableau to model and visualize data, uncovering trends that resulted in a 15% increase in actionable insights for clients.
- Contributed to innovative solutions for complex business problems through advanced data analytics and visualization techniques.

AREAS OF EXPERTISE

- Strong expertise in managing and querying large datasets using SQL, ensuring data accuracy, and optimizing data extraction processes for deeper insights.
- Excelled in managing engagements and collaborating with global teams, leveraging diverse perspectives to drive solutions and deliver results, while also effectively managing client relationships.
- Exceptional communication and collaboration skills, working efficiently in cross-functional teams and presenting insights clearly to stakeholders.
