WORK EXPERIENCE

Engineer - Design & Development Siemens Healthineers

12/2022 - Present

Bangalore, India

Achievements/Tasks

- Design and implementation of product features
- Maintain and improve the existing software product and non-product code base
- Development of robust algorithms that encompass all corner cases

Software Engineer Cadvision Engineers Private Limited

12/2020 - 11/2022

Hyderabad, India

Achievements/Tasks

- Utilized ITK to develop and maintain image processing tools for medical scans
- Leveraged DICOM tags to validate and verify the integrity of medical images
- Streamlined manual design processes by leveraging API programming with COM technology
- Development of Proof of Concept and demonstrate to the client

Senior Engineer Larsen and Toubro

07/2019 - 12/2020

Bangalore, India

Achievements/Tasks

- Interacted extensively with clients to gather project requirements and understand their needs.
- Creative problem-solving and design thinking
- Collaborated with clients, stakeholders, and the design team to develop feasible solutions.

EDUCATION

B.Tech in Electrical and Electronic Engineering

National Institute of Technology - Andhra Pradesh

08/2015 - 05/2019

Tadepalligudem, Andhra Pradesh
CGPA: 7.53

SKILLS

C++

C#

.Net Framework

Problem Solving

Data Structure and Algorithms

OOPS

Angular

Software Development

Typescript

HTML

Windows Communication Foundation

CAD

Qt

Agile

INTERNSHIP

Control System Design

Acquired knowledge in artificial intelligence optimization algorithms, specifically focusing on Particle Swarm Optimization (PSO) and Genetic Algorithms (GA).

PERSONAL PROJECTS

SPEED CONTROL OF PMSM DRIVE USING PI CONTROLLER (08/2018 - 04/2019)

- This project uses DE, TLBO and HYBRID DE-TLBO techniques to find optimum control parameters (K_p and K_i) for obtaining desired steady state requirements of PMSM drive by developing matlab simulink model.

LANGUAGES

English
