

ASIF HUSSAIN

RPA Developer | RPA Consultant

CONTACT INFORMATION:

+91-7406832349
hussainasif1604@gmail.com

SKILLS:

- Robotic Process Automation
- UiPath Studio
- UiPath Orchestrator
- Process Analysis and Design
- Workflow Automation
- Bot Migration
- Bot Change request
- Bot Bug Fix
- Process Documentation
- Solution Development and Deployment
- Team Problem-solving, Troubleshooting
- Team Collaboration & Leadership

TECHNICAL SKILLS:

UiPath, RE-Framework, Orchestrator, VB.NET, C#, API

EDUCATION:

- Post-Graduation Diploma in Advance computing from CDAC ACTS Bangalore (2015)
- Bachelor of Technology from Babu Banarsi Das Institute of Technology-UPTU (2014)
- H.S.C from U.P Board (2009)
- S.S.C from I.C.S.E Board (2007)

PROFESSIONAL SUMMARY:

Dynamic and result-oriented IT professional with 9+ years of experience in IT industries including 8+ years experience in Robotic Process Automation (RPA), specializing in UiPath. Proficient in designing, developing and deploying automation solutions to streamline business processes and drive operational efficiency.

My experience includes working with various types of automation including web, SAP, Windows, PDF, database, Excel and VBA automation.

WORK EXPERIENCE:

HCLTech

SENIOR RPA UIPATH DEVELOPER

January 2023 - Present

- Designed, developed and implemented end-to-end RPA solutions using UiPath Studio, addressing critical business processes.
- Developed automation workflows including data manipulation, validation, exception handling and integration with external systems ensuring adherence to best practices and industry standards.
- Configured and deployed automation bots using UiPath Orchestrator, scheduling and monitoring bot execution and performing troubleshooting and maintenance as needed.
- Worked on bot process enhancement according to customer change request.
- Actively worked with Support team to troubleshoot bug-fix and resolve the ongoing Issues.
- Worked on Migration of 250 automation process from on premise UiPath version 2021.10.4 to UiPath cloud platform version 2023.10.8
- Mentor junior engineers, conducting code reviews, providing technical guidance and fostering a culture of continuous learning and improvement.

Yash Technologies

RPA UIPATH DEVELOPER

July 2022 - Nov 2022

- Worked on bot process enhancement according to customer change request.
- Designed, developed and implemented RPA solutions using UiPath Studio.
- Developed automation workflows, including data manipulation, validation, exception handling and integration with external systems, ensuring adherence to best practices and industry standards.
- Configured and deployed automation bots using UiPath Orchestrator, scheduling and monitoring bot execution and performing troubleshooting and maintenance as needed. Actively worked with Support team to troubleshoot bug-fix and resolve the ongoing Issues.
- Mentor junior engineers, conducting code reviews, providing technical guidance and fostering a culture of continuous learning and improvement.

Certifications:

- UiPath Certified Advanced RPA Developer (UiARD)
- Automation Anywhere Robotics Process Automation Professional (11v)

Courses:

UiPath Advanced RPA Developer
UiPath Document Understanding,
UiPath Orchestrator Level,
SAP Automation Training

Recognitions:

Represented Atos in the Siemens
NAO Hackathon and received the
SPOT Recognition Award.

WORK EXPERIENCE:

Atos Global IT Solutions

RPA Consultant
Dec 2015 - June 2022

- Collaborated with Subject Matter Experts (SMEs) to draft Process Definition Documents (PDDs) and created distinct Solution Design Documents (SDDs).
- Analysed project requirements in depth and worked proactively to ensure timely delivery of results.
- Designed and implemented scalable, efficient process automation solutions and reusable components to support multiple workflows.
- Created robust POC's to provide the feasibility and features of the RPA tools.
- Design a process that incorporates reusable components, enabling efficient utilization across various automation workflows.
- Conducted UiPath training sessions for the COE team to enhance the skills and knowledge of newly onboarded developers.
