OBJECTIVE:

To work in an organization which provides me ample opportunities to enhance my skills and knowledge along with contributing to growth of organization.

PROFESSIONAL SUMMARY:

- Results-driven UiPath Developer with 3.1 years of experience in Robotic Process Automation (RPA).
- Skilled in leveraging UiPath Studio, Orchestrator, and other RPA tools to develop scalable and robust automation workflows.
- Strong problem-solving abilities and a deep understanding of business processes enable the identification and execution of automation opportunities.
- Committed to delivering high-quality solutions that enhance productivity and drive business growth.
- Collaborative team player with excellent communication skills and a passion for innovation in the field of RPA.
- Developed Automated Robots in UiPath & Micro Focus Operations Orchestrations.
- Worked on Web, Mainframe, Excel, Email, Desktop, SAP based automations.
- Worked on Enhancements and Support for developed automated robots.

WORK EXPERIENCE:

Analyst II Software Engineer – DXC Technology

Development for CWS, Orion Database Access provisioning and removing.

- Developed a mail triggered Automated Robot which creates the Jira issues and will fetch the necessary details from JIRA issue & provide the access to the database by executing the SQL queries automatically and informs the user about it through mail.
- Reduced almost 80% of their workforce & issue resolution time.

Skills Learnt: Exposure to SQL, Database and JIRA

Mainframe Automation

- Designed & developed the workflow to schedule a job & modify the application occurrences in mainframe.
- Developed the robot to restart, force complete the failed jobs & applications.
- Developed the workflow to create the backup datasets, edit the Production datasets.
- Reducing dependency on operation team by application team & avoided the ServiceNow tickets.

Skills Learnt: Gained knowledge on working with Mainframe.

eCase Pre-flight Checks

- Developed a scheduled workflow that will perform the web automation in different sites and prepare a report which contains status of the sites and send the report through mail.
- Manually clients were doing this task in 4hours, through automation everything will be performed in 30 mins.

Skills Learnt: Automating websites.

Landscape Inventory

- Developed a workflow that will automate the SAP systems and get the data from different systems and manipulate them excel files and prepared the report as per client's requirement and upload them in SharePoint using PowerShell scripts.
- Reduced around 90% of their workforce.

Skills Learnt: SharePoint insights & used PowerShell scripts to implement SharePoint portion.

Elder, Orion Recertification Tasks

- Developed a workflow that will execute the SQL queries and extracts the results in an excel file and will format the excel file as per client's requirement and send through a mail.

Skills Learnt: Excel Manipulation and automating excel files.

SAP Email Alerts

- Developed a mail triggered Automated Robot which creates the incidents in **Service Now based on the valid email alerts received.**

Skills Learnt: Gained knowledge on ServiceNow incidents.

TECHNICAL SKILLS:

- Robotic Process Automation – UiPath
- PowerShell, SQL & Micro Focus Operation Orchestration

EDUCATION:

- Bachelors in engineering - Electronics & Communication Engineering from Jawaharlal Nehru Technological University, Kakinada.

PROJECT DETAILS:

Worked on the below project as Automation Engineer from client onboarding to delivery.

Project 1: Zurich Service Automation

Tools & Techniques: RPA – UiPath, Micro Focus Operations Orchestration, Html, My SQL, PowerShell, MS Excel, MSWord, JIRA, Mainframe, SAP.

ROLES & RESPONSIBILITIES:

- Understanding client requirement, analyzing requirement specification document.
- Preparing high level scope document which contains all the procedures to be followed throughout the automated project and giving insights to client on expectations and timely deliverables.
- Set up Automated project environment in UiPath Studio, Micro Focus Operation Orchestrator
- Created Automation scripts to extract data from different platforms.
- Gathered data from multiple sources like SharePoint, ServiceNow and manipulated data using UiPath.
- Built quality, error free automated flows/bots according to the client requirement and delivered them on time.
- Automated SAP Systems, Mainframe Systems, and different websites.
- Have done the end-to-end testing as well as supported for all developed use cases.
- Involved in Client calls on regular basis to understand the Business Requirement of the client.
- Thorough knowledge on tool.

PERSONAL PROFILE:

Full Name : Atiya Suhana Shaik

Father's Name : Jani Basha Shaik

Sex\Marital Status: Female\Single

Languages Known: English, Hindi, Urdu, and Telugu

Nationality : Indian

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
