WORK EXPERIENCE

Scottish Power

Data Science Intern

12/2023 – Present

- Improved decision-making by extracting insights from large datasets.
- Enhanced strategic planning by integrating advanced analytics and reduced carbon footprint by 15% through data-driven sustainability initiatives.
- Increased network reliability by 30% by implementing advanced technology solutions.
- Decreased downtime by 40% by predicting and addressing potential faults to maintain productivity and collaboration across remote and in-office settings.

Bank of Scotland

Data Analyst Intern

09/2023 - 11/2023

- Led the transition to a paperless practice by implementing an electronic booking system and a faster, safer and more accurate business system; reduced cost of labor by 30% and office overhead by 10%.
- Supported operations by preparing and processing large datasets and enhanced business decision accuracy by 25% via detailed statistical analysis.
- Enhanced business processes by identifying and implementing solutions and increased team productivity by 18% through collaborative process improvements.
- Expanded technical proficiency through continuous learning and 100% data integrity by following privacy guidelines.

Orinova Innovation Technology

Python Developer Intern

05/2021 - 09/2021

- Contributed to a 20% increase in project success rate by working with senior developers.
- Improved code efficiency by 25% and software maintainability through best practice implementations.
- Improved code quality by 22% by providing and receiving constructive feedback which also helped in supporting team efforts.
- Stayed updated with the latest trends and techniques in Python development.

UNIVERSITY PROJECTS

SPOTIFY REGRESSION AND CLASSIFICATION SYSTEM

Feb 2023

- Genre prediction model with 92% precision and 89% recall.
- 20% improvement in popularity prediction accuracy.

GOOD BOOKS RECOMMENDATION SYSTEM

Apr 2023

- User-friendly book recommendation model, 20% engagement boost
- 30% efficiency gain in onboarding.

FACIAL RECOGNITION SYSTEM

Apr 2023

- K-Nearest Neighbour algorithm with 95% accuracy.
- 30% improvement in face detection for enhanced security.

EDUCATION

University of Strathclyde

Glasgow, Scotland

M.Sc. in Advanced Computer Science with Data Science

03/2024

- **Activities and clubs:** Was member of Indian Student Association (Strathclyde Indian Students Association [SISA]).
- Worked on projects like Spotify top Genre prediction as well as popularity score of the song, Good Reads Recommendation System, Facial Recognition and Transformer problem using deep learning libraries and big data tools and technologies.
- **Skills:** Microsoft Excel, Written Communication, Machine Learning, Communication, Big Data, English, Problem Solving, Statistics, Distributed Systems, Deep Learning

Jaypee University of Engineering and Technology

Guna, Madhya Pradesh

Computer Science and Engineering

06/2022

- **Activities and clubs:** Member of university basketball club and won runner up price in inter year team tournament of sports wing.
- Learned Python programming through creating projects such as a phone directory and Tic Tac Toe game, while also delving into data science specifically in data processing utilizing NumPy and Pandas.
- Developed a Home Automation system utilizing Arduino UNO and Google Firebase in a group project during 3rd year of study, concentrating on hardware configuration and coding assistance.
- **Skills:** Microsoft Excel, Mathematics, Machine Learning, Communication, Python (Programming Language), Problem Solving, MySQL, Analytical Skills, Statistics, Advanced Software

SKILLS

Python, MySQL, Machine Learning, Data Mining, Data Analytics, Data Visualization, Power BI, Tableau, Data Analysis Skills, Statistical Analysis, Communication skills, Time management, Microsoft Excel, Leadership skills.

CERTIFICATIONS

- Data Analytics Essentials from Cisco Networking Academy
- Data Visualisation with Power BI from Great Learning
- Data Science Job Simulation by British Airways from Forage
- Python from IBM Cognitive Classes
