

BALASURIYAN S RPA developer

✉ balasuriyan1@gmail.com ☎ 8883553263

📍 10A/3, Thirumalairayapuram, Srirampuram, 624622,Dindigul, Tamilnadu.

Skilled and outcome-driven RPA Developer with substantial experience with 3 years in UiPath-based business process automation. Capable of designing, developing, and deploying RPA solutions for a variety of applications, including web portals, Excel, PDFs,Database and Citrix environments. Strong technical proficiency in process analysis, solution creation, and implementation. Proven ability to manage and optimize bots, orchestrators, and systems successfully. Committed to ongoing learning and using new product releases to increase company value.

Professional Experience

RPA developer

09/2021 – present | Chennai

Cholamandalam Investment and Finance
Company Limited

- Designed, developed, and deployed RPA solutions for automation of web portal, Excel, PDF, and applications using UiPath, improving process efficiency and reducing manual effort.
- Collaborated with project managers and stakeholders to gather requirements and create Process Definition Documents (PDD) and Solution Design Documents (SDD).
- Delivered high-quality code independently, meeting deadlines and ensuring best practices for code maintenance and scalability.
- Led the implementation of RPA bots, providing technical direction on design considerations, including performance, scalability, availability, and auditability.
- Managed deployments, upgrades, and maintenance of UiPath environments (Studio, Orchestrator, and Robots).
- Used screen scraping methods, including Google OCR and Microsoft OCR, for automating data extraction from scanned documents.
- Provided support and guidance to junior developers in troubleshooting, diagnosing, and resolving customer issues.
- Collected feedback from user team to relay to the product team, ensuring continuous improvement in solution delivery.

Education

B.E., Electronics and Communication

2017 – 2020 | Dindigul

Christian College of Engineering Technology

Technical skills

- **RPA Tools:** UiPath (Attended & Unattended Robots), Orchestrator, Studio
- **Programming Languages:** VB.NET , LINQ, Python, SQL
- **Automation Areas:** Web Portal, Excel, PDF, Citrix
- **OCR Engines:** Google OCR, Microsoft OCR
- **Tools & Frameworks:** Screen Scraping, Automation Framework Design, Reusable Libraries
- **Process Documentation:** PDD (Process Definition Document), SDD (Solution Design Document)
- **Integration:** API integrations
- **Version Control:** Git, SVN
- **Databases:** MSSQL Server, MySQL
- **Operating Systems:** Windows, Linux
- **Technologies:** Intelligent Document Processing, Computer Vision ,AI,ML

Projects

OPS Banking Reconciliation Automation

Developed an RPA solution team for reconciliation bank reports and data extraction, validation, and transfer between multiple systems and data uploads.

Excel Data Analysis Automation

Created a reusable automation framework that processes and analyzes large datasets in Excel, generating actionable insights for management teams, which resulted in a 50% reduction in manual data preparation time.

CSEC Automation

RPA bots were built and constructed using UiPath to automate the processing of real-time data from databases and reporting systems, delivering data to the user team for uploads, and sending daily emails to clients and branches.

Integrated with several system applications and database connectivity. To increase efficiency and accuracy, CSEC entire process was automated.

Person skill

- Strong communication skills for interacting with clients and teams.
- Problem-solving and analytical thinking with attention to detail.
- Ability to work independently with minimal supervision and deliver on-time solutions.
