WORK EXPERIENCE

LTI MINDTREE, HYDERABAD— DevOps Engineer

June 2022- Present

- > Worked for **Opsera** (CI/CD Orchestration platform).
- > I've involved managing and optimising CI/CD pipelines, automating infrastructure, and monitoring system health to support the continuous delivery of features and services.
- > Designed and maintained **CI/CD** pipeline for automating build, test, and deploying processes using **jenkins, Gitlab, Github actions** Using **Azure services, AWS Codepipeline**.
- > Deployed and managed containerized applications using **Docker** and orchestrated **Kubernetes** cluster.
- > Troubleshooted build failures, pipeline delays and post-deployment issues, leading to reduced downtime and faster delivery cycles.
- > Integrated monitoring tools like **DataDogs, New Relic and Grafana** to track system performance.
- > Collaborated with the development and operations team to implement **DevOps best practices**.
- > Provided technical support to clients, troubleshooting and resolving platform tool configuration process.
- > Published knowledge base articles and technical documentation in **Confluence**, providing guidance to the team and customers.

EDUCATION:

Bachelor of Technology In Mechanical Engineering

Kakatiya Institute of Technology and science, Warangal

Graduation: August 2017-May 2021

Percentage: 82

Secondary(XII class)

Narayana Junior College, Hyderabad

06/2015-04/2017

Course: Mathematics

Percentage: 94

Elementary(x class)

S. V. Vidyalayam, Mahabubabad

06/2014-04/2015

CGPA: 9.0

SKILLS

- **Version Control:** Git, GitHub
- **CI/CD Tools:** Jenkins, GitLab.
- **Containerization:** Docker, Kubernetes, Amazon ECS, EKS.
- **Infrastructure as Code:** Terraform, AWS CloudFormation, Ansible(Basic)
- **Cloud Platforms:** Azure, AWS(EC2, S3, AWS Codepipeline, ECS, CloudWatch, etc, GCP(Basic))
- **Monitoring and Collaboration tools:** Data Dogs, New Relic, Jira, Slack
- **OS:** Windows, Linux(Ubuntu)

CERTIFICATES

- Microsoft Azure-900(2023)
- Git, Jenkins, Docker in Udemy(2023)
- Terraform, Azure power shell in Cloud Guru(2024)
