

RESUME

Name: Bhargav Sri Akhileshwar.G
Mobile No: 9110291330
E-Mail: bhargavakhil154@gmail.com

Career Objective:

Looking for a opportunity in a reputed organization. Which will help me to deliver the best, upgrade my skills and meet the demand of organization.

Qualification:

B.E in Computer Science Engineering in S.K.S.J.T.I with 70.02 percentage.
Diploma in Information Science Engineering in E.W.P with 84.56 percentage.

Work Experience:

Currently working in Zwayam Digital Pvt Ltd(wholly owned subsidiary of Infoedge India Ltd) asa Senior SDET from April 2021 to till today.

Involved in web based application testing both in Manual as well as Automation testing for an Talent Acquisition Suite product.

Involved in automating the product end to end by using Selenium in Java.

Utilized the selenium/webdriver framework with java to create more than 1000+ testcases to automate along with functional testing covering deeply nested bugs by increasing more efficiency of product.

Constructed an automation sanity test to run prior to every deployment to shorten the testing time.

Involved in implementing the testcases for both Requirements and bugs which inturn involves automating those testcases.

Involved in manually testing the sanity as well prior to every deployment.

Involved in testing the REST assured API's using the JMeter & Postman tool.

Involved in writing test script using the Jmeter and postman for API automation.

Executing the test script on Jenkins before and after each and every deployment.

Implemented the Automation test result to generate .html file automatically using Java.

Executing the Sql Queries using Java in selenium webdriver(Database testing) which checks the schema, tables and triggers etc, of the database under test, which also involves creating complex queries for performing the load or stress test on the database and checks its responsiveness, integrity and consistency of data.

Implemented the Automation test report using Allure framework to generate allure report with/without using the testng.

Testing the existing/newly created API's manually using POSTMAN tool.

Implemented the automation test script end to end for an 'Naukri Resdex' Product.

Implemented the automation test script end to end for an 'Naukri Airex' Product.

On Daily basis, checking HTTP requests(400 to 405, 500 to 505 response code) & status of all API's in production environment using Kibana tool, if there is any issues, we will create Jira bug for that issues and report to team head.

1 year experience in product based company as Technical Analyst at GRC STACK PVT LTD,

Involved in development environment configurations using spring tool suite, apache tomcat, spring, Hibernate etc.

Involved in developing Entities, Services, and Repository classes using annotations.

Involved in developing complex queries using JPA criteria and HQL.

Involved in developing Alert management system such as Notifications using Emails and SMS.

Involved in developing User & Role based privileges.

Involved in developing reports using dynamic jasper tool.

Involved in data modeling and maintaining Databases.

Involved in updating a SQL Queries in Database.

Involved in using selenium automation web driver and TESTNG, JUNIT for web based application testing.

Involved in Manual Testing and writing a QA Test Cases and Plans for an application.

Involved in Automation Testing and writing a QA Test Scripts to run an application.

Involved in both JAVA & PYTHON Automation.

6 months experience in product based company as Testing Analyst at CLICKONCARE.COM,

Involved in web based application testing both in Manual as well as Automation testing for an ClickOnCare.com website.

Involved in testing manually for an Android App [ClickOnCare App].

Involved in implementing the test cases.

Involved in testing the payment gateways through Manual Testing & in Automation testing.

Involved in writing the Python script for Automation testing.

Involved in Writing a Test Script for Automation using Java Selenium Webdriver.

Involved in testing the REST API's using the JMeter & Postman tool.

Involved in updating a SQL Queries in Database.

QA Test Cases, Plans & Execution:

Performed risk assessment and research by closely monitoring test cases.
Prepared Quality Assurance test plans, budgets and schedules.
Identified, fixed, and scrupulously documented application bugs.

QA Documentation:

Researched and documented details of errors in report-process immediately upon discovering problems.
Ensured version control of all test objects developed and QA test environments used –
Updated QA test execution status as a part of routine test status updates.
Ensured optimum quality control of products – Prepared evaluation of software requirements, specifications, user documentation, help files and other related documentation of project.

1.2 years of experience in public sector unit as Graduate Engineer at BHARAT ELECTRONICS, from Feb 2020 to April 2021.

Involved in development environment configurations using QT toolkit.
Involved in developing & creating a UI interface using QT.
Involved in developing defence projects using QT .
Involved in creating & designing web based application for one of the defence project.
Involved in Manual testing for web based application & writing test scripts to automate a web based application using Java.

Technical Skills:

Language Known	: C, C++, Java, Python, C#,SQL,HTML.
• J2EE Frameworks	: Spring 3.x, 4.x.
• ORM Tools	: Hibernate 5.x.
• RDBMS	: Oracle 10g, PostgreSql, MySql, MongoDB
• Web/Application Server	: Tomcat 9.
• IDEs	: Eclipse,Pycharm,QT tool.
• Automation & Test Tools	: Selenium/Webdriver, TESTNG, Junit, Jenkins, Jira, Postman, Jmeter

Academic Project Details:

- **Project Title:** iLogin
- **Aim:** iLogin is a Universal Remote login server tool using MD5[MessageDigest-

version 5]. This tool is installed on a remote server that has several applications like data servers..and many more.

- **Project Title:** Id Based Aggregate Signature Scheme
- **Aim:** Send a Information to Base Station based on Cluster Head using WSN.

Achievements:

- I was the 4th topper for college in diploma and 1st for the class
- I participated in IOT Boot Camp on “Smart Governance”
- I develop the Android Apps
 - i) Web Browser
 - ii) Downloading the Question Papers.

Personal Skills:

- Ability to work in group as well as individual.
- Quick learn.
- Flexibility and adaptability to work in any environment.
- Hard worker and smart worker.
- Excellent grasping capability and understanding the concepts clearly.

I hereby inform you that the above mentioned particulars are good according to my knowledge and belief.
