SUMMARY:

Dynamic individual with two year of experience working at a Japanese company, smoothly incorporating cultural insights into projects. Competent with a variety of software programs for enhancing workflows and boosting productivity. Ready to apply technical knowledge and intercultural competence to new endeavors.

EXPERIENCE:

SOFTWARE ENGINEER, 09/2022 - Current

Nidec Advance Technology Corporation, Location - Japan, India

Project: GATS Application inspection machine(Grid Array Testing System)

Duration: 09/2022 - Current

Role: Software Developer

Project Details: The GATS Application is designed for the inspection of PCB (Printed Circuit Board), FCP (Flexible Circuit Board), and IC Substrates (Integrated Circuit Substrates).

Responsibilities: Played a key role in developing and maintaining the control system software using VC++ and MFC technologies, ensuring optimal performance for inspection processes. Worked extensively on the Human Machine Interface (HMI) and Main Machine Controller (MMC), handled bug fixing, feature development, and contributed to the creation of detailed design documents and system test reports.

Technology: Visual C++, C++, MFC, Visual Studio, SVN, Redmine, VS Code, Beyond Compare.

Project: Nidec Code Refactoring Tool(R&D)

Role: Software Developer

Duration: 05/2023 - 04/2024

Description: Description: Utilized C++ and Python programming language, machine learning algorithms, web scraping for datasets creation.

Technologies/Tools Used: Git, Jira, Vs code, Jenkins, Django.

SOFTWARE DEVELOPER- INTERN, 02/2022 - 09/2022

Utthunga Technology, Location - Bangalore India

Project: OneDat

Duration: 02/2022 - 05/2022

Description: C# programming language, complemented by Web API implementation and MVC architecture, Database: MySQL, Testing tools: Swagger and postman.

Project: Utility Tool

Duration: 05/2022 - 09/2022

Description: This project is utilizing WPF, C# programming language, seamlessly integrated within the MVVM architecture.

EDUCATION:

MCA (Master of Computer Application) with 8.56 CGPA, 2022

Visvesvaraya Technological University, Belagavi.

N.M.A.M. Institute of Technology, Nitte.

BCA (Bachelor of Computer Application) with 71%, 2020

Mangalore University

Sri Bhuvanendra College, Karkala

COLLEGE PROJECTS:

MCA Project: E-Power:

Technology: ASP.NET (Visual Studio) & SQL Server

Purpose: The purpose of the "E-Power" to simply and automated process of giving electrical complaints and services to the user and admin maintain stocks and records of the lineman.

MCA Mini Project: Android Ticket Collector

Technology: Java & Android studio

Purpose: Android ticket collector is one of the systems that is used by the bus conductor to collect tickets easily through their cellphone.

TECHNICAL SKILLS:

Programming Languages: C, C++, Python, C#, JAVA.

Operating System: Window XP, Linux.

Database: MySQL, Oracle, SQL-Server.

Web Designing Languages: HTML, Bootstrap.

API Design, Machine learning algorithms.

Web-based software engineering in multiple computer languages.

LANGUAGE:

English, Japanese Basic, Kannada, Tulu, Hindi.

ACHEIVEMENTS AND AWARDS:

Received "Above and Beyond" Awards at Utthunga Technologies.

Actively Participated in National Survey Schemes in years 2017 & 2018

Actively participated in IT fest in the year 2019.

PERSONAL DETAILS:

Date of Birth: 22 February 2000

Marital Status: Single

Nationality: Indian
