|--|---|
| Senior Lead, Delivery Management - AIA
Kyndryl Solutions Pvt. Ltd. | 07/2024 to Current
Bangalore Karnataka |
| <ul style="list-style-type: none">• Led and developed a 21-member team across Service and Asset Management functions, improving operational efficiency.• Coached and mentored underperforming team members, enhancing overall productivity and morale.• Managed onboarding, training, and workforce development, ensuring the seamless integration of new hires.• Streamlined knowledge transfer (KT) for a China-to-India transition, centralizing resources for improved accessibility.• Automated reporting processes enable efficient backlog tracking and stakeholder communication.• Established governance frameworks to standardize workflows, enhancing efficiency and consistency.• Led change management initiatives, addressing knowledge gaps, and driving continuous improvement.• Acted as the primary escalation point for service issues, ensuring quick resolution and minimal disruptions.• Implemented ITIL best practices, optimizing service management processes for improved performance.• Engaged directly with clients to ensure service excellence, manage expectations, and address concerns proactively. | |

- Maintained policy and compliance adherence, ensuring smooth operations and regulatory compliance.
- Monitored key service metrics, producing insights and reports for leadership to enhance service delivery.

**Senior Lead, Delivery Management - Luminor
Kyndryl Solutions Pvt.Ltd.**

**09/2022 to 06/2024
Bengaluru India**

Operations Lead – IT Command Center:

- Established and led a 24/7 IT Command Centre with a 15-member team to proactively monitor alerts and prevent major incidents.
- Oversaw daily operations, shift scheduling, and performance management to ensure effective monitoring, aligned with organizational standards.
- Defined and tracked KPIs to ensure SLA compliance and operational excellence; created regular trend and performance reports for leadership.
- Reduced false alert volumes by collaborating with infrastructure and application teams; implemented structured alert protocols, and quality controls.
- Initiated 'Pay Day' monitoring sessions to prevent high-impact incidents in financial transaction windows.
- Ensured complete runbook validation in Opsgenie, and identified alerting gaps to enhance system monitoring coverage.

Process Engineering and ITIL Service Management:

- Built and managed a team of ITIL Process Owners covering Incident, Change, Problem, Asset, Configuration, Knowledge, and SLA Management.
- Ensured SLA adherence and customer satisfaction through continuous monitoring, escalation handling, and process improvement initiatives.
- Designed and implemented service delivery policies and governance frameworks in line with client expectations and compliance requirements.
- Facilitated service delivery meetings, created executive reports, and maintained strong stakeholder engagement across global teams.
- Led backlog reduction initiatives and service enhancement efforts to optimize delivery performance and mitigate risk.
- Managed third-party vendors and served as the single point of contact across customer, vendor, and internal teams for operational events.

Workplace and Service Operations Management:

- Directed a team of offshore engineers supporting Luminor Bank branches across Latvia, Lithuania, and Estonia, with onsite IT operations.
- Conducted monthly, quarterly, and semi-annual reviews to evaluate team performance, SLA adherence, and service quality.
- Developed governance models and defined operational procedures to drive consistency in service delivery and incident management.
- Mentored teams on ITIL processes and operational excellence; implemented improvement measures to enhance user experience.
- Acted as a liaison between business leadership and operations, enabling alignment on strategic initiatives and program execution.
- Collaborated with clients to identify improvement opportunities and lead service transformation activities.

**Senior Lead, Delivery Management - CIO
Kyndryl Solutions Pvt. Ltd.**

**09/2021 to 08/2022
Bengaluru India**

- Led service delivery for three major accounts (TEM, MACD, and Print@Kyndryl) with a 25-member team, including offshore staff in the Philippines, ensuring SLA compliance and seamless day-to-day operations.
- Transitioned work from Malaysia to India during the IBM–Kyndryl spin-off, setting up governance frameworks, and improving team productivity through process streamlining.
- Oversaw performance management activities, including reviews, coaching, engagement programs, certifications, and cross-training, to build a high-performing and resilient workforce.
- Implemented structured onboarding and training programs, ensuring new hires were fully equipped with tools, access, and knowledge for business-as-usual operations.
- Refined operational metrics and reporting to improve visibility into team performance and eliminate non-value-adding work.
- Led backlog reduction efforts and service improvement initiatives to enhance operational efficiency and responsiveness.
- Established and managed fulfillment processes across the ANZ and ASEAN regions; collaborated on implementing the Rivermine platform for invoice validation.
- Secured new business for Global Print at Kyndryl and contributed to service growth through continuous improvement and stakeholder collaboration.

Service Availability Manager - IGA-iERP
IBM INDIA Pvt. Ltd.

10/2014 to 08/2021
Bengaluru India

Operational Services and Delivery Excellence:

- Led global and geography-level IT operations, ensuring service excellence, customer satisfaction, and alignment with IBM's business objectives.
- Met or exceeded contractual SLA targets as part of IBM's Partnership Agreement through proactive service governance, and continuous improvement initiatives.
- Optimized IT infrastructure availability and performance by driving preventive maintenance, monitoring processes, and quarter-end readiness.
- Delivered a robust Enhanced Recovery Model to reduce the impact of complex, major incidents, and minimize downtime.
- Promoted integration across delivery teams, embedding Client First practices, and driving quality across all service delivery functions.

Incident, Problem, and Change Management:

- Managed critical incidents with urgency, engaging technical teams, and ensuring timely, high-quality communication with stakeholders and clients.
- Led end-to-end RCA management, ensuring timely submission, stakeholder reviews, accuracy, and preventive action follow-up.
- Oversaw integrated Incident, Problem, and Change Management processes, enforcing IGA change policies, planning change windows, and mitigating conflicts.
- Coordinated 'Hands and Eyes' support during hardware failures, and ensured Netcool suppressions were aligned for disruptive changes.
- Acted as an AFP (Authorized Focal Point), handling emergency changes, SPM ID approvals, and user communication for application availability.
- Drove the planning and testing of application and infrastructure changes, ensuring minimal disruption and alignment with production requirements.
- Conducted quality checks and approvals in ServiceNow, coordinated with global teams on change impacts, and led health and wellbeing technical calls.

Account Management and Agile Delivery:

- Maintained strong client relationships through regular engagement, DR participation, and alignment of service delivery with client business needs.
- Ensured license and asset management compliance by collaborating with GTS, tracking TAD4D alerts, and managing MAD vulnerability remediation.
- Led project and process improvement efforts in the absence of a formal project manager, working across service lines to close operational gaps.
- Reviewed and improved documentation, including DOUs, process workflows, and audit materials.
- Acted as Iteration Manager, leading Agile ceremonies (stand-ups, retrospectives), and successfully advanced the team from 'Practicing' to 'Transforming' in Agile maturity.
- Facilitated continuous improvement through Kanban board usage, Agile reporting, and Spring Cleaning initiatives under the CIO program.
- Championed the transition from SCCD to ServiceNow, and contributed to change management and process standardization across squads.

Account Program Office SME
IBM INDIA Pvt. Ltd.

07/2008 to 10/2014
Bengaluru India

Work, Onboarding, Contract Administration, & Service Quality:

- SME for Work Onboarding and Offboarding, ensuring compliance and process efficiency.
- Managed BAG (Boarding Approval Gate) requests, facilitating smooth transitions.
- Conducted training sessions, and maintained process documentation for knowledge retention.
- Led risk management and escalations, ensuring timely issue resolution and compliance.
- Played a key role in automating work onboarding processes, improving efficiency.
- Oversaw change management reviews, tracking progress, and implementing necessary follow-ups.
- Managed contract inventories (SOWs, CTAMs, and OAM classifications) to maintain accuracy.
- Produced MIS reports to provide data-driven insights for leadership decision-making.
- Supported GDC and APO-specific audits, ensuring adherence to regulatory policies.
- Established service quality governance, ensuring compliance with global standards.
- Developed analytics and reporting frameworks for tracking service performance.
- Led risk and issue management, driving service improvements, and operational efficiency.
- Designed RCA and G2G templates, enhancing root cause analysis, and governance strategies.

Service Coordinator - SSO Midrange
IBM INDIA Pvt. Ltd.

07/2006 to 07/2008
Bengaluru India

Business Operations, Compliance, and HR Support:

- Compiled and analyzed MIS reports, including headcount, attrition, skill tracking, payroll, productivity, project status, budgeting, and expense reports.
- Ensured accurate and timely reporting to support data-driven decision-making.
- Served as the CIRATS focal point, tracking and updating action plans to ensure issue closure.
- Reduced noncompliance in WST, ISAM, and IT Security Diary to zero by proactively addressing overdue QMX documents.
- Managed resume screening, interview scheduling, and documentation for the offer rollout process.
- Scheduled meetings, trainings, and conference calls, ensuring seamless coordination of events.
- Organized meeting rooms, projectors, and minutes of meetings to facilitate smooth operations.
- Handled travel requests, hotel and guest house bookings, conveyance arrangements, and work permit processing for international travel.
- Coordinated with external agencies for police clearance certificates for multiple countries.
- Created and presented PowerPoint reports, and collaborated across departments for data analysis.

- Managed financial tracking, approvals, and claims processing for employee welfare funds, and travel expenses.
- Led event and stationery management, ensuring smooth office operations and task tracking.

Process Executive

07/2005 to 06/2006

HCL Capital Market Services

Bengaluru India

- Managed end-to-end trade operations, including allocation, execution, pre-matching, and reconciliation, ensuring timely and accurate settlements.
- Investigated and resolved trade discrepancies, compiled Fails Reports, and mitigated settlement risks through proactive issue resolution.
- Processed account amendments and verified trade details with counterparties via Bloomberg and direct communication.
- Maintained trade records and performance tracking through daily reporting, including End-of-Day Reports and Etrack management.
- Responded to trade-related inquiries via group email, ensuring efficient resolution, and continuous operational support.
