OBJECTIVE

Innovative **Robotic Process Automation (RPA) Specialist** with expertise in **UiPath, Power Automate**, and **IBM RPA**. Proficient in designing, developing, and deploying automation solutions to optimize business processes across industries. Recognized for enhancing efficiency, reducing errors, and driving measurable results. Skilled in stakeholder collaboration, process optimization, and technical documentation.

SKILLS:

Languages : Python
RPA : UiPath, Power Automate, IBM RPA
GenAI : Gemini, IBM watsonx.
Google Cloud : DocumentAI
OS : Windows (Server/ Desktop), Linux
Applications : SAP, VMWare.
Database : SQL

PROFESSIONAL EXPERIENCE

Team Lead - Automation

Catnip Infotech Private Limited

Bangalore, India
(Aug 2022 -Present)

- Led automation initiatives, collaborating with cross-functional teams to identify and streamline business processes.
- Delivered end-to-end RPA solutions across diverse industries, improving operational efficiency and accuracy.
- Presented over 15 Proof-of-Concepts (POCs) to stakeholders, driving innovation and client approvals.
- Coordinated with clients to ensure smooth project delivery and post-deployment support.
- Designed a scalable data pipeline integrating diverse data sources including CBS, Non-CBS, Operational and Analytics CRM, and Digital Lending Platform, enhancing data management.
- Implemented a robust verification system using **Cloud Functions, Pub/Sub, Cloud Run, Cloud SQL**, and **Document AI OCR** for effective extraction and validation of applicant details.
- Established a secure Data Warehouse and Data Mart infrastructure using BigQuery, ensuring the removal of PII for enhanced data security and compliance.
- Designed and deployed a Data Fetch, Ingestion, and Processing Pipeline from SAP ERP System using Python, Google Cloud SQL, Cloud Functions, and BigQuery.
- Developed a POC for monitoring and patching network infrastructure using Ansible, enhancing security and efficiency.
- Created comprehensive process documentation and deployment support materials to ensure seamless project execution and knowledge transfer.
- Managed end-to-end project lifecycles, fostering collaboration among cross-functional teams to achieve project goals on time and within scope.
- **Interpersonal Skills:** Maintained effective communication with stakeholders, actively listening to their requirements and providing tailored automation solutions.

PROJECTS

Real Estate Automation

- Automated SAP processes, including password resets, bank statement retrieval, Goods Entry Invoice automation, and attendance tracking.
- Streamlined manual workflows, reducing human intervention and enhancing process accuracy.

Manufacturing Automation

- Digitized courier tracking, delivery management, product tracking, and Purchase Order (PO) creation processes.
- Implemented vehicle-based material handling automation, enabling seamless material inward and outward workflows.

Textile Industry Automation

- Designed document understanding solutions for Order Confirmation (OC) creation and ERP data entry.
- Improved data processing accuracy and reduced turnaround times for critical textile processes.

Banking Sector Automation

- Developed account-opening automation, extracting customer data from forms for seamless onboarding.
- Reduced manual effort and significantly improved customer onboarding timelines.

Proof-of-Concepts (POCs)

- Delivered approximately **15 POCs** showcasing automation solutions for diverse use cases, including **document understanding, data extraction, and workflow optimization.**

EDUCATIONAL QUALIFICATION

- | | |
|--|---|
| • Master of Computer Application (MCA)
Kongu Engineering College | (JUNE 2019 - APR 2022)
Erode, TN, India |
| • Bachelor of Computer Applications
Hindustan College of Arts & Science | (JUNE 2015 - APR 2018)
Coimbatore, TN, India |

CERTIFICATIONS

- RPA Developer Foundation Certification - UiPath
- IBM RPA Developer
- IBM RPA Architect

ACHIEVEMENTS

- Most Promising Manager of the Year – 2023
 - Recognized for leadership and exceptional project management.
 - Certificate of Appreciation – 2024
 - Honored for significant contributions and productivity over two years.
-
