EDUCATION

Bachelor of Technology in Petroleum Engineering

Lovely Professional University

06/2017 - 05/2021

Punjab, CGPA-7.54

PROJECTS

Power Platform Project and DevOps Pipeline

Revenue Management

- Worked in three canvas app under that project which has dotnetapi, power automate, powerbi reports and dashboards. Added the powerbi tile inside canvas app which needs certain filter in tileurl. Many power automate flows been done using custom connectors in the flow. This was a complex project but still I was able to work on it with CLI scripts and presently working on it's pipeline. Also completed a devOps pipeline to move app and also powerbi report from one workspace to another without any premium per user license

Website Unification

- There is many websites based on facilities done in php, wordpress and api in .net so created repos accordingly and having multiple pipelines in each repo for api and web app which is been deployed to deployment slot in app service.

Incident registration app

- This application is to register incident where it's datamodel is complex which needs row level security and has many lookups in the model. So to implement it I have used business unit, teams and security role. I have a deep knowledge about row level security.

Intelligent Automation

- In this project I have worked on Power automate, canvas app, dynamics 365, custom developed components, model-driven apps, azure logic apps, dataflows, Security roles, teams, business units, user management, dataverse, data tables, business rules, one to many relationship and many to many relationship and keys for dataverse table to restrict duplication.

Log Automation

- Experience in working with ELK Stack (Elastic search, logstash and kibana) and also worked with filebeat in some cases for getting the logs parsed to elasticsearch and visualising it.

WORK EXPERIENCE

Power Platform Developer and DevOps Engineer

iMED IT Solutions

02/2022 - Present

Kakkanad

SKILLS

Azure

Power Automate

PowerBI

Azure App Service

Pipelines

ELK Stack

Azure Entra ID

MySQL

PowerApps

DevOps

Jenkins

Grafana

XRM Toolbox

ACHIEVEMENTS

Salesforce Process Automation Specialist Super badge

National Tata IT Wiz (10/2015)

A quiz competition based on information technology

EXTRACURRICULAR ACTIVITIES

Lovely Professional University (2018)

Participated in a Seminar on "Overview of Petroleum Exploration and Production".

Lovely Professional University

Participated in International Conference Recent Advances In Fundamental And Applied Sciences (RAFAS) 2019.

CERTIFICATES

Microsoft Certified (05/2022 - Present)

Microsoft certified in Power Platform Fundamentals and Azure Fundamentals

IBM Certified DevOps Fundamental

International Conference RAFAS (2019)

Online certification of IWCF

WOCRM and LEVEL 1
