

Roles and responsibilities

- Having Experience with AWS Cloud which includes services like: **ELB, EC2, S3, EBS, VPC, Security Groups, Firewall, EKS, IAM, ACM.**
- Installing and configuring applications on AWS **EC2** Instances.
- Experience in working on version control systems like **GitLab** and **Bitbucket** used Source code management client tools like **Git Bash**.
- Working on GIT repository implementation. Defined branching strategies in GIT and implementation of best practices.
- Experience on containerization tool **Docker**. Writing Docker files for creating Docker images and **containers** for different environments.
- Experience in creating deployments in Kubernetes to achieve **CI/CD** in micro services-based applications.
- Good knowledge on **Kubernetes** or **K8s** tool.
- Experience in working on Linux and Linux **networking**.
- Having knowledge on **Bash scripting**.
- Used GitLab to implement Continuous Integration and Continuous deployment.
- Automate the build process using **GitLab runner** in GitLab.
- Building CI/CD Pipeline using **Jenkins**
- Setting up **kubespray** to install kubernetes on barebone servers on AWS instances, written **Ansible playbooks**.
- Creating servers taking **snapshots, VPCs, subnets** in AWS.
- Working on branching strategies for **GitLab**. Configured and deployed **GitLab** repositories with **branching, tagging, merge requests**.
- Created **Docker** container images by tagging and pushing the images and worked on the infrastructure using Docker containerization.
- Experience in **Docker-compose**.
- Implementation of Hashicorp vault to **MinIO** s3 client.
- Kubernetes upgrade and **certificate renewal**.
- Good Knowledge in **Public key infrastructure**.

Operating Systems	Linux, Windows
Cloud Technology	AWS
Source Code Management Tool	GitLab, Bitbucket
Configuration Management tool	Ansible
Load Balancer and proxying solution	NGINX,HA-proxy
Container Tools	Docker, ContainerD, Docker compose
Containerization & Orchestration Tools	Kubernetes
Scripting Languages	Bash Scripting
S3 Data storage	MinIO, AWS
Continuous Integration Tool	Gitlab Runner, Jenkins
Monitoring Tool	Prometheus, Grafana, Kiban, Flilebeat
Authentication	Hashicorp vault, keyclock
infrastructure-as-code software tool	Terraform

Professional Experience

- Worked as **DevOps Engineer** at **Pix Dynamics** from Jan 2021 to June 2022.
- Working as **DevOps Engineer** at **SEQATO** from June 2022 to till date.
- Total years of **experience: 3 years**.

PROJECT 1:

Domain: Banking

Role: DevOps Engineer

Responsibilities:

- Installing maintaining, administrating and writing config files for application using **Kubernetes** or K8' s
- Writing config files for NGINX and HA PROXY for Proxy pass.
- Worked on Containerization tool like Docker and Docker-compose, writing Docker files and docker-compse, and creating Docker Images out of them.
- Worked on Docker container, attaching volumes to a running container, removing images, and managing containers.

Project 2:

Project Domain: Banking

Designation: DevOps Engineer

Responsibilities:

- Installing maintaining, administrating and writing config files for application using **Kubernetes** or K8' s
- Writing config files for NGINX and HA PROXY for Proxy pass.
- Installed Prometheus, Grafana, Kibana used for monitoring the servers, created dashboards and configured custom metrics.
- Worked on Containerization tool like Docker and Docker-compose, writing Docker files and docker-compse, and creating Docker Images out of them.
- Worked on Docker container, attaching volumes to a running container, removing images, and managing containers.

Project 3:

Project Domain: Logistics management

Designation: DevOps Engineer

Responsibilities:

- Maintaining and managing the QA, Development, Staging and Production environment.
- Automate and maintain CICD using Jenkins.
- Customize configuration in Bitbucket as per requirement.
- Update expiring AWS services like EKS etc.
- Create infrastructure on AWS cloud using Terraform tool.

Educational qualification

B.TECH Electronics and communication -MA COLLEGE KOTHAMANGALAM
(MG University) 2018

Diploma Electronics- JDT POLYTECHNIC COLLEGE, CALICUT (Technical board) - 2015
Class XII- Bio science- Kerala State Board-2012

Declaration

I hereby declare that the information furnished above is true to the best of my knowledge.
