Project Experience

PROJECT

NAME : ANALYTICS PLUS

ROLE : MEMBER TECHNICAL STAFF

DESCRIPTION:

ManageEngine Analytics Plus is a versatile data analysis and reporting tool integrated into the Zoho suite. It offers powerful features, including data visualization, custom data connectors, and structured data modeling, making it an asset for converting raw data into actionable insights. With automated reporting, it streamlines the reporting process, enhancing operational efficiency. The tool integrates seamlessly with other Zoho applications and third-party tools, catering to diverse business needs. Analytics Plus is invaluable for making data-driven decisions, whether for business intelligence, financial analysis, or performance monitoring, all while prioritizing data security with role-based access control and encryption features.

Responsibilities:

- Effective collaboration with development and testing teams to ensure software quality.
- Expertise in various testing methodologies and test automation tools, including Selenium, Postman, and Playwright.
- Strong coding skills in Java and JavaScript.
- Proficient in identifying and reporting defects, code review, and debugging.
- Contribution to CI/CD pipelines, such as Jenkins, to streamline the development process.
- Thorough testing, including REST API testing, to maintain software quality.

Declaration

I hereby declare that all the above details are true and correct to the best of my knowledge And I bear the responsibility for the correctness of the above-mentioned particulars.

Place: Chennai.
